## \$6,000 FIRE AT SNOWDEN-McSWEENEY WELL

### Two Children Killed By Lightning In Dallas Storm

#### EIGHT YEAR OLD BOYS DIE; 4 HURT

Dallas, June 2.—A bolt of lightning striking a play "store" of neighborhood children here shocked out the lives of two small boys.

As the children, just out of school for the vacation, busied themselves selling lemonade to passersby, the shock came, killing 8 year old Harry W. Frasier and a chum of the same age, David Bettison, Jr. The boys were customers at the lemonade stand.

Four others were injured, three of them small boys and the other a nurse who ran out to get one of them when the storm threatened.

WHITE PLAINS, N. Y.—Edmund J. Bryan, bond salesman, will spend six months in jail because he entered the street on which his wife lived. He had been on parole after arrest for annoying her.

BEAUMONT.—White Griggs, Postmaster at Burdickville, Newton county, was released under bond of \$3,000 following his arraignment before J. B. Morris, United States Commissioner to plead to a complaint filed by D. J. McKinley, Post Office Inspector. The Commissioner alleged that the postal funds were short \$2,914.05. Griggs pleaded not guilty.

#### Y. M. C. A. BUREAU STANDS A MAN TO HELP MEXIA

Sherman W. Dean of the Y. M. C. A. Bureau of the International Committee of the Y. M. C. A. was in Mexia Friday in consultation with Dr. Bayless, Jesse F. Denning, member of the Campaign Committee and the Board of Directors with reference to proposed plans for the Y. M. C. A.

It was understood that Mr. Dean in Mexia in an advisory capacity spent several hours in consultation with the committee.

Plans are being pushed all possible, commensurate with good business policy, and when the work is in it will be pushed to completion as quickly as possible. A member of the committee stated that he believed it would be safe to predict that the next ten days would witness the actual beginning of building operations.

#### Collier Gets Krupp's Home In Germany

Edison G. Collier, New York editor of the magazine and Deputy Justice Commissioner, has been for the summer the famous Hermann P. Krupp, the most famous owner of the Krupp works, of Essen. The estate is located in Baden and is valued at \$1,000,000.

#### Noe Invokes Past Trying to Prove Evolution Theory

CHICAGO, June 1.—Scientific theories of evolution are antedated and revised by discoveries of prehistoric all fossils of botanical life in Mid-Western coal mines, Prof. Adolf C. Noe, a professor of paleobotany of Chicago University made this announcement today.

"Fine lines and tracings in 'coal balls' from mines in Illinois, Texas and Iowa and other States show that flowering plants of high development existed on earth when, according to present scientific theories, only low forms of moss grew."

A fossilized outline of a plant similar to a cornstalk was found in an Illinois coal ball, Noe claims it existed millions of years ago.

#### CIVIC LEAGUE COMMITTEES ANNOUNCED BY CLUB

The Civic League held its first called meeting at the new Public Library building Thursday afternoon of this week.

The organization came into being the week before, when J. K. Hughes tendered the city of Mexia a plot of twelve acres of land within the residential district of Mexia, asking that the ladies, as custodians, take charge immediately and undertake a campaign for its beautification.

Mrs. Weaver Barnett was elected President of the Civic League which sprang to serve this particular purpose at this time, as well as to perform other acts of service for Mexia in the meantime and hereafter.

At the meeting Thursday, it was decided to meet the first Thursday in every month.

Plans for the perfection of the club and also to work in connection with the City Park Beautification and other kindred subjects were considered and as a result the following committees were appointed:

Constitution and By-Laws—Mrs. David Murphy, Chairman; Miss Julia Kahl, Mrs. E. L. Smith, Mrs. R. D. Morgan.

Finance Committee—Mrs. A. H. Berry, Chairman; Mrs. Ben Smith, Mrs. Julius Desenberg, Miss Katharine McGrail.

Publicity Committee—Mrs. A. G. Adair, Chairman; Mrs. Geo. Peyton, Mrs. E. Nussbaum, Mrs. J. I. Riddle, Membership Committees—Mrs. Sam Cox, Chairman; Mrs. A. H. Eubanks, Mrs. Gene Sinclair, Mrs. W. M. White.

Clean-up Committee—Mrs. W. C. Wilson, Chairman; Mrs. Rex Forrest, Mrs. Nelson Forrest, Mrs. Julius Nussbaum.

Advisory Board Committee—Mrs. J. K. Hughes, Chairman; Mrs. A. H. Berry, Mrs. Geo. Peyton, Mrs. Jack Womack, Mrs. Weaver Barnett, Mrs. A. G. Adair, Mrs. Sam Cox, Mrs. David Murphy, Mrs. W. C. Wilson. Grounds Committee—Mrs. Jack Womack, Chairman; Mrs. R. D. Morgan, Mrs. Geo. Peyton.

#### Clara Phillips Goes Back to Jail

LOS ANGELES, Cal., June 1.—Clara Phillips will be placed in the Los Angeles county jail from which she made her dramatic escape last December when she arrives here tonight, authorities indicated.

Chief Deputy District Attorney Asa Kays, following a conference with Judge Paul J. McCormick and sheriff's said Mrs. Phillips would probably be held in the jail for five days for technical reasons and then it is intended to transfer her to the penitentiary at San Quentin.

On her arrival the convicted hammer murderer was officially notified that her appeal for a new trial has been nullified, as a result of her escape.

#### CRUIQUI WINS LIGHTWEIGHT CHAMPIONSHIP

NEW YORK, June 2.—Eugene Cruiqui, European featherweight champion won the featherweight championship of the world here today when he knocked out Johnny Kilbane in the 6th round of a bout scheduled to go fifteen rounds.

NEW YORK.—Wishing to celebrate her 102d birthday, Mrs. Frances Mary Wright, was forced to hold the party at the home of one of her grandchildren. She has outlived all her children.

#### Whitans Out Thousands To See Klan Service

WICHITA, KAS., June 2.—Curiosity of the people of Wichita over secret rights of the Ku Klux Klan is still unsatisfied because of the setting chosen by the local chapter to initiate its 652 candidates last night. "Whitans" were out by the thousands, but the north end of Laird aviation field was about as close as any got. The initiation took place about half a mile north of the city.

Mrs. Lamar, widow of Bunkie, La., is here on a visit to her parents Mr. and Mrs. A. M. Stevens at 200 East Hopkins street.

#### ATTICUS WEBB SAYS ZWEIFEL NOT LAWYER

Dallas, June 2.—United States District Attorney Henry Zweifel of the Northern district of Texas, was today charged with incompetency and failure to prosecute criminals, in a letter to Attorney General Daugherty from Atticus Webb, superintendent of the Texas Anti-Saloon League. Zweifel is not a lawyer and never had a case in court until he was appointed district attorney, the dry leader asserted. He made specific charges of the alleged failure of Zweifel to prosecute law violators.

#### Two Americans Released From Their Captivity

By RAY G. MARSHALL  
Pekin, June 2.—J. A. Hanley, of New York and Edward Elias, Americans and two other foreign captives taken by Chinese bandits from the wreck of the Shanghai-Pekin Express and held for ransom, were released today. The foreigners were carried in chairs from the bandit camp in the Shantung hills and arrived at Tsao Chuan.

The other two released, were Vera and Sappiere, the former a prominent Mexican. The brigands are to be taken back into the Chinese army—one of the stipulations upon which freedom for the foreigners depended.

#### SPARK IGNITES WELL WHILE TUBING IS PULLED

At about one o'clock Saturday afternoon, a spark ignited the Snowden-McSweeney well on the Longbottom at Currie doing considerable damage before brought under control.

At the time of the occurrence, J. P. Dunaway, of the Kaufman Street Grocery, accompanied by his brother-in-law, C. E. Hon of Denning, New Mexico, were visiting the Morrow section of the Currie field which is near Wortham and saw the spectacular blaze soon after its origin.

At the Longbottom number 5 well, which has been producing around 200 barrels of oil for some time, drillers were pulling the tubing when the flow raised the tubing a short distance and then fell back. In the drop, a spark flashed as the tubing struck against the control head. The fire raged for quite a while, E. M. Zada, lease foreman for Snowden-McSweeney, states that the conflagration caused the loss of the standard rig, tubing, derrick and some oil, entailing a loss, it is estimated, around \$6,000. Fortunately, no one was hurt in the fire.

#### SIX BURN TO DEATH

Toronto, June 2.—Six persons were burned to death when fire destroyed the home of Silas Stanlake in the village of Scion, near Oshawa, Ontario.

#### FIVE MEASURES SIGNED AND ARE MADE LAWS

Austin, June 2.—Governor Neff today filed with the secretary of state five bills to become laws as prescribed by the provisions of the bills. Three of these bills were approved and two were filed without the chief executive's approval. The most important is the Caylor oil production tax bill. This carries a tax of 2 per cent on gross receipts. This is an addition of one-half of one per cent over the old rate. The bill to bring commercial motor trucks and motor bus and jitney carrying passengers or freight under the supervision of the State Railroad Commission and declaring them common carriers, was approved. The \$400,000 deficiency bill was approved.

#### Actress, Vindicated, to Sue for Willton.

Miss Stella Larrimore, actress, announced that she will sue Geraldine Farrar, opera star, for \$10,000 for alleged defamation of character. Miss Farrar had named Miss Larrimore in her suit for divorce against Lou Tellegen, the actor, but the charge was withdrawn in court, and Miss Larrimore was judiciously vindicated. Supreme Court Justice Lohman, of New York, ordering her name stricken from the divorce complaint. She had demanded a jury trial.

FIRST CHRISTIAN CHURCH  
REV. G. T. REAVES, Pastor  
Mexia, Texas.

Building Committee: Carl Davis, J. E. Baxter, C. O. Sergeant, Mrs. T. G. Gamble and W. B. Kendrick.

#### POWELL AND CURRIE HOLD INTEREST OF OIL FRATERNITY AS DRILLING RIGS RUN SPECTACULAR RACE FOR BIG OIL RICHES

##### THE MEXIA NEWS WANTED BY NEW ORLEANS FIRM

Jas. O. Jones of the Jones Investment Company of New Orleans writes: "Evidently our name has slipped off your mailing list, as the last paper we received was dated Friday May 25. Please look into this as we are anxious to get your paper every day." Mr. Jones formerly resided at Kasse where he has large interests. He is well acquainted here, has been a reader of The News all through the oil boom and knows the local newspaper to be the "old reliable" when it comes to dependable information.

SAN ANTONIO, June 2.—San Antonio is soon to have a new pipe factory which will give employment to about fifty men, according to William A. Burr, geological engineer. The plant which will manufacture lead pipe from Mexican ore will have a capacity of about ten tons daily. The ore will be smelted at the mines thus eliminating the cost of transporting waste material.

Burr's company has a capitalization of \$100,000 principally from San Antonio and Mexican business men.

Miss Bobby Line and Miss Rosa Felt left Saturday for a week-end to visit friends and relatives in Dallas. They will visit Miss Annie Laurie Loomis, formerly of Mexia.

The J. K. Hughes Developing company now has seven wells drilling near its McKie in the Powell oil field. The original producer on this lease is maintaining its heavy production consistently and steadily. The record shows that the gusher is yielding within a hundred and fifty barrels or less of 6,000 barrels every twenty four hours. The production is being sold to the Magnolia Oil company for \$1.25 per barrel.

The same company's Morrow 1 at Currie has never fallen below 1100 barrels daily since it came in April 26. Mr. Hughes stated Saturday that this well would likely produce a quarter of a million dollars worth of oil or more before what is known as flush production, augmented by gas pressure, declines.

In speaking of the value of the McKie oil bearing properties and the lease on which the J. K. Hughes Developing company's McKie is located, he would not favor disposing of same for \$3,000,000. Oil men assert that this property alone is worth the full capitalization of the company.

Three more wells are expected in soon at Currie in the vicinity of the valuable Morrow.

The Texas Company's Morrow 1, second well, is down 2,587 feet. The Texas company's number 2 is down 2,132 and will not casing early this week.

##### MEXIA CITON MILL CONSIDERED MONDAY

The Chamber of Commerce is in receipt of a letter from L. W. Robert of the Cannon-Robert interests to the effect that he has just returned to Atlanta from a business trip and that during the week beginning June 4th he would be in consultation with M. L. Cannon with reference to the McKie situation, and that he would write fully from Concord, N. C., and doubtless visit Mexia within the near future.

At the Lions club meeting Friday, Jean Ormsby, Circulator for the Mexia Daily News, had charge of the program and presented one of the most interesting and entertaining yet given. The Elk's Orchestra, under the leadership of Charles L. Clover, Secretary of the Elk's club, presented several splendid numbers, included in which was an Overture and a March "Lions Parade." This special number was enthusiastically received by the Lions, another number was an aesthetic dance by little Miss Eoline Watson, accompanied by Miss Beth Ellington on the piano. The final feature was a three round boxing bout between "Ver-non and Killian," "Real Acrobats" the program, announced, following which those looking on and applauded did "shower down." Every number was a rare treat.

#### COMMENCEMENT SERVICE AT BAPTIST CHURCH

Senior Class night was observed Friday night. The graduates of the High School here held this part of the Commencement exercises in the new auditorium of the handsome new High School building on Red River and Grayson streets. Chas. had been placed in the auditorium for that occasion and the hundreds who assembled had their first opportunity to admire the new structure, the beautiful stage, its handsome curtains and also to enjoy the program which the graduating class presented in splendid fashion.

The Baccalaureate sermon will be preached today at the First Baptist church, Rev. Daniel E. Greider, A Presbyterian pastor from Terrell will deliver the sermon to the class of twenty eight members. Mr. Greider has visited here on several occasions and those who have heard him are enthusiastic in their praise of his towering ability as a speaker. Special music has been arranged for the occasion and a great service is expected.

Monday evening, at the High School auditorium, Dr. T. D. Brooks of Baylor University, will deliver the Commencement address to the class of '23. The following are those who complete the course of study in The Mexia High School.

Jim Smith, president; Mildred Cox, secretary and treasurer, Dick Atkinson, Allen Bryant Cecil Durlap, Jack McKinney, Griffin Thrift, Fred Hoskins, George Wall, James Derry, Blanche, Corder, Myrtle DeLong, Lucille Farrar, Bernice Farris, Lucille Hoskins, Elizabeth Karner, Lucille Kennison, Eugenia Koltz, Hazel Laird, Dorothy Moore, Dorothy Pailor, Melba Petty, Clara Faye Randall, Gertrude Mae Rogers, Celeste Sellinger, Euleta Sharp, Nannie Lou Tynon.

Thursday of this week, Attorney General W. A. Keating made a tour of inspection of the Mexia oil field district, including a trip to the Powell pool. He was accompanied by William Reed, R. Sheppard and R. V. Nichols of the Humphreys Oil Company.

#### Fascisti Methods In French Politics

PARIS, June 1.—Introduction of Fascisti methods into French politics will be debated in the Chamber of Deputies.

Following the man-handling of three Socialist leaders, who were shampooed with purple ink, forced to drink castor oil and rolled in the mud, Deputy Herriot announced he would interpellate the Government concerning the episode.

As the three Socialists—Deputy Moutet, Marc Sagnier and Former Minister Violette, were leaving their homes late last night they were stopped. The attacks, it is said, were aimed to prevent the three from attending an "anti-Fascist meeting."

## ORGANIZED CHRISTIANITY

"Take heed therefore unto yourselves, and to all the flock over which the Holy Ghost hath made you overseers, to feed the church of God, which He hath purchased with his own blood." Acts 21:28.

The church is the organized Christianity of the community. The church is a school of Christian character ready to do its work. There are those who claim that they do not need to attend church—they can be religious at home. The same people could also educate their own children at home but they prefer to send them to an organized school because as a whole organized schools do better. Teachers are not all sages but they render the children a service that they could not receive in any other way. People could be religious at home, but how many of us spend an hour or two on Sunday in reading scripture, in prayer, in attention to some phase of Christian duty and privilege?

The church by its prayers, its music, its lessons lift the thought and aspiration of a congregation to higher levels.

The church does not contain all the good there is but it holds the larger proportion.

## MAKE THEM WORK

Who would suffer most if the I. W. W. radicals had been successful in demoralizing operating industry on May 1?

The working men and communities where the industries are located.

A man who listens to the talk of an I. W. W. is on a par with the man who looks down the muzzle of a loaded gun while fooling with the trigger.

What can the I. W. W. give the American workmen but demoralized government and unemployment?

Why don't the I. W. W. go to Russia? Because the workmen there are starving to death under the policies which they advocate here and an I. W. W. could not fill his stomach there off the labor of others—he might have to WORK and starve.

The I. W. W. agitators have just been turned down hard but they will not profit by the lesson. They should be rounded up and sentenced to WORK!

## THE GOLDREN RULE ON THE HIGHWAYS.

It has been said "Tell me what you eat and I will tell you what you are." Educators have often remarked, "Tell me what a man reads and I will tell you what he is"—the "what" here is not a grammatical error—for sometimes "animals" display human intelligence at times.

Just so—watch a man in an automobile behind the wheel and you can soon determine what kind of a man or "animal" he is. There is no finer study of the genus homo—or better still no better position in which to judge the kind of a man than that as the driver of one of our modern distance eliminators. Here it is that you can easily tell the selfish man—he sits there behind that wheel as if NO one on earth was out today but Big I. He hugs the middle of the road and dares any man, woman or child to dispute his right to remain there. He swerves neither to the right or left—unless he meets another of his kind and then it's a case of which one moves first. It's not consideration with the road hog. It's a pure case of self-preservation that makes him consider the other fellow in any light.

How often have you seen the man that wants to take his time driving in the middle of the road while some one behind—perhaps a physician on an errand of mercy wants to get by—has to lag there, eat the dust and dirt of the "road hog" until thru sheer desperation the "fellow behind" decides to take a chance and pass with the evident possibility of accident to both.

Again on meeting one of these misanthropes have you noticed how laggardly he decides to give you your part of the road. People forget that the Highways belong to Everyone that wishes to use them. That is his right under the Constitution as long as he uses same sanely and with consideration of the others that might happen along. And when you, I or any other man on

weights 11 pounds, 4 ounces. There are nearly 6000 Cohens and Cohns and approximately 1300 Smiths and Smyths. There are 223 Abraham Cohens.

—Mart Herald.

That shows where New York gets her people. Of course the Smiths were all natives of this country, while nearly all of the Cohens were attracted to this country because of the many Exco Marks here on which they can prey

## A FISH STORY.

W. J. Boswell, W. H. Brewer, W. J. Campbell, Wallace Daniels, Ellis Brewer, Ogilvie and Stuart returned Wednesday from Buffalo lake where they captured a 36-pound catfish with a minnow seine. Boswell and Ellis Brewer, while hunting for frogs, discovered the fish on a sand bar and tried to catch it. It got into deeper water and they returned to camp for the rest of the party and procured a minnow seine. Returning they captured the fish and brought it into camp. If this will not pass as a fish story, it's up to some one to tell a better one. And, mind you, it's one is true, according to the participants.

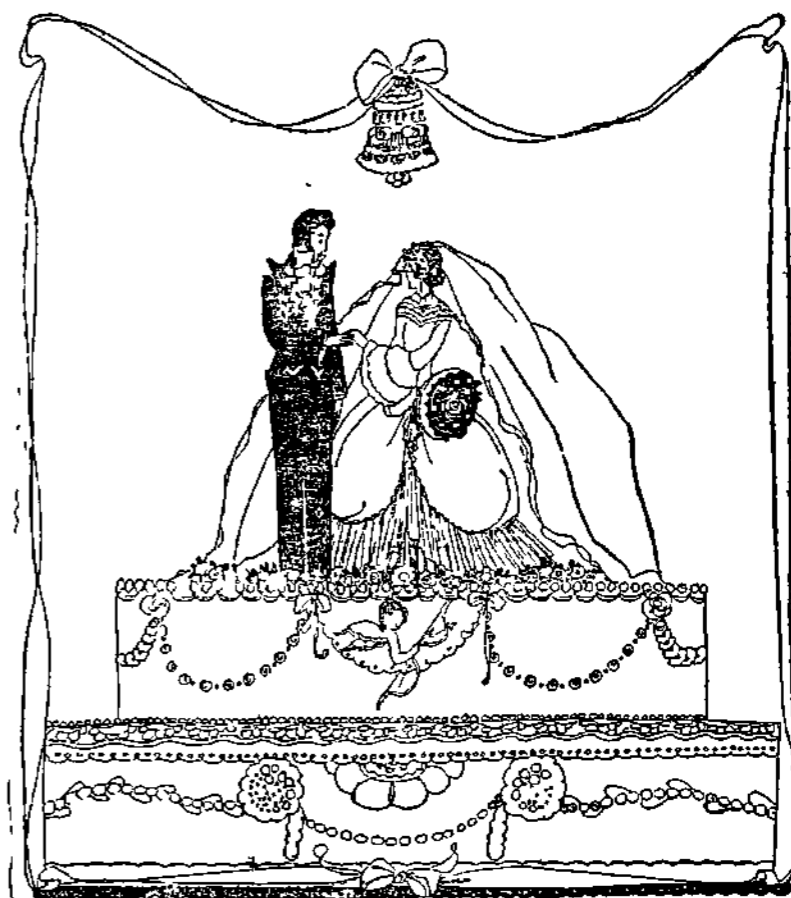

—Teague Chronicle

But all fish stories are true—according to the participants

When Policeman Dennis Griffin, of Cleveland, Ohio, arrested John Lewis Whitfield on a charge of bootlegging, Whitfield asked the officer to permit him to go in to his home to change his clothing. He secured a pistol and entered his automobile to drive the policeman to the station. On the way he shot Griffin to death and burned his body, hiding it in a shallow grave, where it was found later. Then Whitfield picked up his female companion, Marie Price, and fled. Whitfield was captured in Madison, Wisconsin, but escaped. The woman was held.

"The Place You'll Like to Trade"

## CENTRAL TEXAS PRESS By N. P. HOUX.

"Boot-Legg" is the heading over a marriage notice in an East Texas paper, and Sam Miller of the Mineral Wells Index, says, "Now make your own joke about it." We suppose they are liable to go on a big spree and their troubles will all be "little ones."

Texas may have elected men governor who never played a game of baseball, shot a gun or caught a fish, but by the eternal the old commonwealth has never yet called to the office of chief executive a man who would refuse to kiss a pretty woman when opportunity offered—and she never will.

—Demson Herald.

And as Pat says this was his first offense it is presumed that it was his first opportunity, and he is entitled to a suspended sentence.

We've never decided whether writing paragraphs like these is an art, a gift, or a calamity.

—Sam Miller in Mineral Wells Index.

What's the matter with calling it a job?

All over the country there seems to be a movement to rid cities of undesirables. Where do these banished creatures go? Must they be unloaded upon other cities already fully supplied with undesirables? Where do cities get by passing the undesirable back to neighboring communities?

—George Bailey in Houston Post.

They get rid of the undesirables—temporarily at least—But the main question is, where do the undesirables come from? The answer is, they come from the homes of the people, and they are undesirables because they were not

properly "raised" in the first place. Too many automobiles and picture shows for parents to have time to look after their children, and every day in some way it seems to be getting "wusser and wusser."

Governor Neff is back at Austin on the job after an eight or nine day jaunt around the circle, which took him to San Angelo, and several West Texas points where a governor of the state has never visited before, and finally brought him to Terrell, Texas, where he delivered an address to Texas Military college graduates, which was a gem in its way. Leaders in the legislature raised a great furor because the governor took occasion to make his trip at this time, when a special session was on and important business of state remained to be transacted.

"The state might as well be without a governor," said one critic, unmindful of the fact that the legislature has done considerable jaunting about itself this year. The governor stuck mighty close to his knitting through the two sessions of the legislative body and work that had been set for the legislature to do remained undone when those two sessions were concluded. Perhaps the governor thought that if he would go away for a time the legislature might get in a humor to get down to work. Anyway, we can readily understand why the governor wanted to get away for a rest.

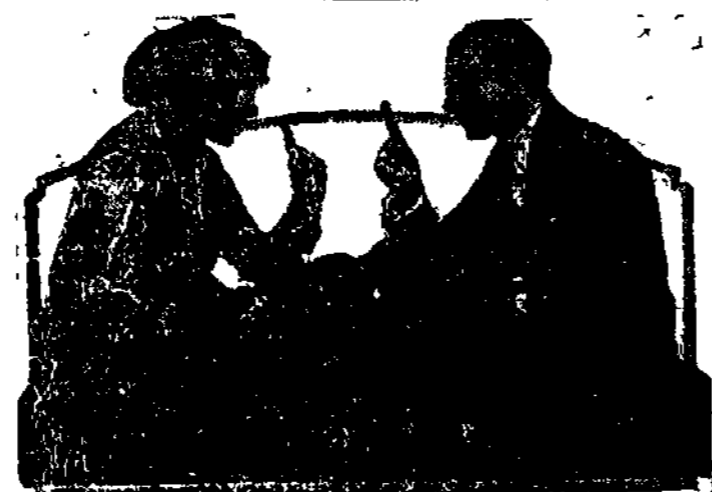

—Terrell Transcript.

## C. of C. Meeting Important To Progress Of Mexia

Announcement as to the coming date of the open meeting of the Chamber of Commerce will be made within the next day or so, and when this meeting is held it is hoped that every business man in town will make a sincere effort to be present and do his best to support the movement.

The Chamber of Commerce is supported by two distinct classes of contributions. One of the contributions is the individual membership fund as is represented by the Individual \$12.00 membership, a campaign for which was made in January of the present year. These memberships date from January 1st to December 31st and

are designed and intended only to augment the sustaining fund, which at that time appeared a trifle low for the financial needs of the organization.

The other class of contribution is really the bulk and backbone of the organization which is called the Sustaining Fund and which is made up of the contributions of the different business institutions of the town that are much larger than the individual memberships. These contributions are made from May 31st to June 1st and while the office of the Chamber of Commerce feels assured that most of them will be willingly continued at the same time they have no au-

thority to collect for the first quarter beginning June 1st, 1935 until confirmation and authority is given by the various subscribers to this fund. It is for the purpose of this confirmation that the coming membership meeting is to be held, and the meeting will be entirely of a business character and there will be no long winded speeches and long drawn out oratory. Light refreshments such as sandwiches, coffee and cigars will be served and each business man of Mexia who feels that the Chamber of Commerce should be perpetuated and its work carried on, should make it a point to attend this meeting and not "let George do it". The present management of the Chamber of Commerce has always tried to avoid calling unnecessary meetings and for that reason believes that this meeting should be encouraged.

Other things to come up at this meeting will be the selection of a President to take the place of Geo. E. Petty, who retires with a wonderfully successful record. Mr. Petty is due the unbounded thanks and appreciation of the entire community. He gave liberally of his time and efforts for the Chamber of Commerce, for the town at large, and the best part of it is that he did so in his characteristic spirit of generosity and good fellowship. Don't "let George do it" any longer for George has been faithful and some public spirited citizen who has the interest of the community at heart, should accept Geo. Petty's mantle as his public duty.

The Chamber of Commerce does not feel that any boasting of achievements is necessary to justify its existence, and what is herewith recounted is not mentioned in a boastful spirit but merely as a matter of business. During the past year they point to the following principal achievements.

First, of all and most important of all and without which no good can be accomplished, they point with pride to a united citizenship. The Master Himself said "A house divided against itself cannot stand", and Paul, the great Apostle, said "Be ye of the same mind one toward another" and this is primarily the object of a Chamber of Commerce. During the year just closed, con-

siderable street work has been done and the opinion has been expressed outside the office that but for the work on the streets, sidewalks and crossings, they would have been impassable during the bad weather.

Previous to the present management the Chamber of Commerce was largely responsible for the passage of school, paving sewer and water works bonds and has been in the front rank of every campaign for the advancement of the community.

During the year just closed, in addition to the street work above mentioned, a few of the accomplishments of the Chamber of Commerce including the securing of adequate train services during the Kossie boom, the securing of \$50,000 appropriation on K-A-H Highway and raising \$25,000 in private subscriptions for the same project, the raising of the fund for the Y. M. C. A., the successful campaign for subscriptions to the Cotton Mill, work in harmony with the

City Government, the County Commissioners Court on all public movements; improvement of South Belknap Street and others of less magnitude including countless acts of individual service which should at all times be continued.

With conditions such as they are at the present time, those who have given the matter study, believe that there is more need of a Chamber of Commerce during the coming year than ever before and an article along this line will be offered for Monday's paper.

The things slated for accomplishment within the coming year are:

Proper organization of a Home Building Campaign.

Building of a creamery.

Building of a packing house and cold storage.

Oil refinery.

and such other projects as shall appear feasible and practical. Two of these projects mentioned above will

## Scenic School For Denverites

DENVER, Colo., June 2.—Courses in scenic instruction, amounting to a class in geography for grown-ups are the latest in Colorado in anticipation of the army of tourists who will spend their summer vacation in the Rockies.

Hotel owners have taken their assistant managers and desk clerks on excursions into the mountains so they, in turn, may advise strangers more intelligently than formerly about sight-seeing trips.

Tourist drivers of Colorado Springs are completing a course of instruction fostered by the city administration, not only for certificates of competence,

likely be completed at a very early date, and it might be said that the last is more than a probability.

but to meet qualifications in explaining the scenic wonders of the Pike's Peak. College students are the only applicants considered for bus drivers by one of the largest transportation companies in the state because they can best explain the geological, historical and scenic phases of the journeys to their passengers.

The familiar "redcaps" at the Denver union station have also been schooled in railroad and scenic information so they may be able to direct the tourist on various trips throughout this section thus relieving the traveler of the worry and care of looking up journeys.

The manufacture of cement requires finer grinding than any other industrial process used on so large a scale.

It is estimated that there are more than 25,000 radio sets in Argentina compared with less than 100 a year ago.

—Nothing is more appropriate for making pretty and dainty morning dresses than the light weight tissue ginghams. The stock is very complete now for your inspection.

## Dresses for the Little Girl:

—What is prettier than a neat little child's dress of Crepe? So easy to launder, too. The stock in this section is complete with the wanted patterns.

## A Neat Percale Apron:

—Is indispensable in performing the many tasks that arise in the daily routine of the housewife. You will find that aprons made of the Standard percales in our immense stock will give you real satisfaction and can be made remarkably attractive to look upon.

## For Out-door Wear—Ratine:

—That ever popular material for out door and sports wear. We have a remarkable assortment from which you can choose, almost any can be made into charming dresses. Come in and see the display in our piece goods department.

## The Touch of Lace:

—Transforms the common piece into the unusual. We have lovely designs in our large new assortment of laces.

## For Dainty Undergarments:

—The stocks of "A. B. C." Silk—"Betty Chygne" and Wash Crepes are wonderfully adaptable to the making of dainty articles of lingerie for the summer season.

## We Sell Nationally Advertisised Goods

I spend my money like all the wise  
For stuff other "live ones" advertise.  
When I go to bed each night at ten  
I leave my call with a "BABY BEN"  
Next morning—here's my regular dope  
A "CRANE" bath tub and "IVORY" soap  
With "TURKISH" towels, I scrub my knees  
Then slip my shanks into "B. V. D.'s"  
My Breakfast—"KELLOGG'S TOASTED FLAKES"  
With a strip of "ARMOUR'S" on "BUCKWHEAT  
CAKES"  
Then I go on a coffee "souise"  
With about three cups of "MAXWELL HOUSE"  
Then I kiss my "wifey" once or twice—  
Before the man comes with "PHILLIPS" Ice  
I "beat it" to town with all my might  
In a car advertised as the "WILLYS-KNIGHT"  
I work in "PATTERSON'S JEWELRY STORE"  
Where you get your money's worth and MORE  
A "DUNLAP" hat is on my bean  
Wear "NETTLETON SHOES" size seventeen  
Drink "FAIRFIELD HOOTCH" from down on the river  
Peddled by a Guy in a second hand "FLIVVER"  
Sell "VICTOR MACHINES" and "COLUMBIA'S" too  
(A few dollars down brings one to you)  
Sell "HOWARD WATCHES"—one is in my pocket  
It brings more coin when I have to hock it  
When I crave amusement—I always go  
To the "GRAND" or the "NATIONAL" picture show  
I work like — from seven to ten  
Then toddle back home, and to bed again  
And when I doze away and begin to snore  
I rest my bones on an "OSTERMOOR"

WE PROMISE THIS—GIVE US YOUR "BIZ"  
AND WE'LL GIVE YOU "THE BEST THERE IS".  
—PATTERSON.

## A GLANCE AT GUHERLAND

The ever extending Mexia oil field interest in following oil booms where they go.

Thousands are flocking to the region from all points of the compass and tents are rising in great numbers, while oil field shacks and other more substantial buildings are contributing to the life of the new producing area.

Hundreds from Mexia ply between the fields daily, on train and in automobiles.

Trucks go out of here every few minutes loaded with supplies.

The rapidity of development in the past week at Powell has been made possible on account of so great a quantity of oil field supplies being available in the twenty or more supply houses with headquarters here.

Including Powell, the Mexia district this past week produced more than 70,000 barrels of crude petroleum daily. Regular daily reports of runs are expected from the former as soon as pipe line connections are fully established, which will likely be this coming week.

At least five pipe line companies will participate in solving the transportation problem of the field. While Mexia with its available storage facilities of more than 21,000,000 barrels will assure the new field that there will be no congestion of oil, such as many new fields experience to their harm in the beginning. There is no barrier at present seen to retard speedy development.

The five pipelines are to be built or are being built by the Magnolia, the Texas, The Humble, the Prairie and The Humphreys-Pure.

Curtailment in production is heard of in adjoining states, but it is not expected that the Powell section will be hindered in its development and development by joining in with any such policy. The operators are thoroughly in sympathy with any and all ideas for the betterment of the industry but the youthfulness of the field makes it impossible for any company to take the chance of losing what they may have by co-operation at least until the fields limits and the flush production of the field are known. The prevailing thought is to protect each interest to the limit.

The Moody well at Tehuacan, seven miles Northwest of here, is bailing.

The Humphreys Brown, twelve miles southwest, has set casing.

The Transcontinental and the Morley, tests, southeast, and near Morse are dividing attention in that district.

Northwest, eleven miles, at the well being drilled by The Texas and other companies near the J. K. Hughes Morrow, in the Currie field, things are expected to happen almost any time.

For these reasons, Mexia operators and citizens are living with all eyes open and with interest centered on all.

Prices have soared, similar to the old days in Mexia when oil properties were reported as being "sky high" and men "hog wild" in their endeavors to buy, own hold, drill, or dispose.

It is generally believed that the prolific pool will be found to extend probably as far southwest as the T. & B. V. tracks. With this opinion firmly fixed, the Humphreys Oil Company is financing the building of a bridge across Chambers Creek between Mildred, a new station on the T. & B. V. and the Powell producing area. A gravelled highway connects. This company also this week announced the purchase of side tract privileges along the T. & B. V. where switches are to be built, a company warehouse erected and field headquarters established. The Humble Oil and Refining Company is also understood to be spending more than a hundred thousand dollars in the same kind of work at this station. Many supply houses in Mexia are requested to be making arrangements to establish field supply houses there.

Mildred is about two miles north of Navarro, an old stop on the T. & B. V. At the point where the switches are being built by oil companies and by the railroad itself, the rail lines are crossed by a gravelled highway connecting Corsicana with Powell. In this way, railroad maps show Navarro but do not show Mildred. Mildred itself is an inland village and the name given on the station, which is included in the Navarro railroad yards, which have been extended to include it derives its name from this highway.

About 40 car loads of oil field equipment and supplies have this week been directed to Navarro to be sidetracked at Mildred for unloading for the Powell field. The other railroad serving Corsicana and Powell have likewise been busy, calling to mind the busy days of Mexia late in 1924 when 23 switch engines were required in the local yards to handle the material movements here. At that time the business done in Mexia was greater than that by the same number of railroads in any city of Texas of over 150,000 population. This gives one an idea as to why folks outside of the oil industry regard the oil industry as a boom.

## Luling Oil Leases Swing For \$60,000

### INSIDE CASING BEING SET IN BROWN WELL

GROESBECK, June 2.—In order to complete the well without a lot of caving, open hole at the bottom, the Humphreys Oil Company has had the liner removed from the bottom of the Brown well and is running a string of six and a quarter inch casing inside down to the bottom. When the casing is in place, drilling, which has been suspended for several days, will be resumed probably the latter part of this week and the well finished in short order. The gas out put of the well is enormous and having in mind the catastrophe at the well at Powell field, the company has wisely adopted a rule of keeping people away from the immediate vicinity of the well.

The next week of drilling should go far to determine whether the Woodbine sand in paying quantities underlies the Brown well and until the well reaches the depth at which the sand is to be expected, it is of course useless to indulge in predictions. However, it is the business of the Humphreys Oil company to produce oil and they are spending lots of money on the operation and the oil men take pleasure in believing that they know what they are doing. Therefore, it expects the Brown to be a producing oil well.

The Humphreys Welch well has the string of inside casing reset and resumed drilling Wednesday at about 4000. This well is being drilled for a test of the Trinity sand and has yet some distance to go. The Arnett well of the Balcones Oil Company and the Texas Stroud well have each had minor fishing jobs for the past few days. Both jobs have been completed and the wells are getting out of the chalk. If no further trouble delays the operations the Arnett and Stroud wells should be setting casing in a few days more.

Jay Russell Smith, special agent, Accident and Liability Department, Aetna Life Insurance Company, of Dallas was a business visitor here Friday. He served in the army with the same artillery battery as several Mexia ex-soldiers who were glad to see him while here.

Luling, June 2.—Twenty acres of oil leases changed hands this week at \$30,000 an acre, making the deal a \$60,000 affair. Such is the faith which oil men have in the field which began with the Rio No. 1 which came in last August, and it being deepened as it is thought the oil bearing stratum was merely scratched.

Scattered around over the field there are approximately 30 derricks, and more rigs going up. The Barrow Oil Company is drilling at a depth of 2,235 feet, and expect a producer as soon as the cap rock is penetrated. The ordinary drill failed to penetrate the line and a diamond point roller drill made only about three feet in nearly a day and night. Should this be a producer the field will have seven producing wells.

The present production of the field, according to C. O. Rison, district supervisor of state oil and gas department, is about 3,000 barrels per day. This may vary slightly either way, as there has not been a definite gauge in some of the new producers.

New Building Going Up.  
Tabor No. 1 is the biggest producer and the Hardeman well with a big gas flow is second. Merriwether No. 2, third well in the field, heads every hour and 20 minutes.

The Robbinet well has had some trouble in drilling, and is still at 2,330 feet.

Luling is somewhat handicapped for facilities for caring the hundreds in town daily, and appeals have been made for every kind of a business location, from that of a barbershop owned and operated exclusively by women to bankers and Chinese and Japanese who want business quarters.

J. E. Allen is having a two-story brick building erected and F. A. Heise will have a dry goods store with a plate glass front. An offer of \$15,000 has been made for a block of land, with five shacks on it, which recently sold for \$5,500, but the offer was refused. It is understood that the property is held for \$20,000.

### 500-FOOT OIL MAY BE FOUND

LOCKHART, June 2.—Lockhart has begun operations for a oil field in its front door, and George Smith, veteran oil man, is expecting production at approximately 500 feet. The Smith No. 1 is being drilled two and one-half miles north of Lockhart on the Schuennemann tract.

The well was spudded in Tuesday

and the rotary drill sank rapidly and was 110 feet deep early Wednesday morning and going down 200 feet a day.

Should this well be a producer, and

especially at the shallow depth the drilling may have to continue to geology of the structure leads experts depth of 800 feet, but the well will be thought it will be found, wealth would a thorough test, which is being made from a well of no more than 10 on a 2,000 acre tract. The well will be Oil may be found at 300 feet, and drilled to 2,000 feet if necessary.

## Why Do You Read Newspapers?

Right away you say "to know what's going on everywhere, to be well informed."

You read the front page for the most important news.

There's at least one more page that you turn to regularly, probably several pages.

It may be the editorial page, the woman's page, or the sporting page.

Perhaps it's the market page, or local news.

At any rate you want to have up-to-date information on whatever interests you.

Do you read the advertising columns regularly?

Do you know that they are one of the most important features of your favorite newspaper?

You are interested in whatever will save you money, time and labor.

Read the advertisements to learn what is new—what you need—and where to find it.

The newspaper advertisements will tell you how to increase your knowledge and your income.

They are a liberal education in themselves. Read them faithfully.

## T. A. GOSSIP

By HECK

With another week now past history the Texas Association starts another with no relative change in the standings of the clubs. The Gushers with Saturday's victory over the Gumbo Busters increased their lead over Sherman to five and one half games when the Sox and Bathers were idle from rain. Austin's two straight wins over the Indians proves that the Rangers have finally got going and can now be counted to win and liable to beat any club. Their even break with the Gushers in four games is the best they have done against any club to date and when they beat House and Schmid, two of Waco's best hurlers they did something worth while. Marlin is slowly but surely slipping due to terrible work on its infield and cannot hope to climb the ladder unless prompt action is taken to bolster up two weak spots in their infield. Waco is making a helluva lot of noise about how wonderful their ball nine is but don't seem to be getting anywhere in spite of the ballyho. Jack Shires had the Indians going like blue blazes but Dupuy got dizzy again and put in a new manager and blosse the Indians again. The Red Sox are stum bling along and since the other clubs have found that Swede Ling is easy to beat the Sox are finding the going tough. Friserson and the balance of the Sox sluggers have dropped to zero and in spite of the great pitching of Muns and Richburg the Sox are slowly slipping. Corsicana with its flock of old soldiers is just breaking even and it will soon be up to Grubb to get some live youngsters in the line up to keep the balance of the club from doing a regular Rip Van Winkle sleep. As it stands the Gushers are in no immediate danger of losing the lead and with the 12-day home stand opening June 7, there should be no doubts about the future.

W. B. Banks was in Corsicana Saturday on business.

Geo. Peyton has spent the greater part of the week in Corsicana oil fields.

A guard for the pedal-openings of pianos has been invented to prevent the entrance of mice or insects.

The Italian government has decided to permit private wireless services with simple receiving apparatus.

A new form of mute for cornets enables those instruments to produce tones similar to those of a saxophone.

## Army Of Pro Officers Mobilized To Combat Action Of N.Y. Leader

Chicago—Police for a year thought John Thomas was selling "dope" but couldn't find his supplies. They finally located the cache in Thomas' wooden leg.

CHICAGO—A man can't be sent to jail for fooling with his own alarm clock, in the opinion of City Attorneys commenting on efforts of the state legislature to prevent daylight saving in Chicago.

NEW YORK, June 2.—An army of Federal prohibition enforcement agents was mobilized today, ready to be thrown into New York if Governor Smith's action in approving repeal of the enforcement act results in a "booze rebellion" in this State.

Although Smith, in signing the repeal, warned the wets that the Volstead law was still in effect, and that every citizen should obey it, thousands of liquor vendors are believed ready to take advantage of the situation and begin "wide open" booze selling.

President Harding, in a recent letter to a citizen of Newburgh, N. Y., stated that the consequence would be very serious if any State permitted violations of the prohibition law, and strongly hinted that the Federal Government would intercede in any such State and take over control of dry law enforcement if necessary.

Palmer Canfield, Federal prohibition director here, has already called a conference of sheriffs and police chiefs to arrange co-operation in enforcement of the Volstead law. The date has not yet been fixed. Canfield said it was imperative that the small number of Federal Agents be reinforced by the State police officials.

Smith, in signing the repeal, made it clear that he was not acting in de-

finance of the constitutional amendment. He emphasized that, with two prohibition laws in New York, one State and one national, citizens were subject to be punished twice for the same offense. "Double jeopardy," and were liable to The State law was necessary and should be repealed in the interests of the rights of the citizens, he said, in a long statement explaining his action. He replied to the letter of President Harding to Dr. Wait of Newburgh by pointing out in courteous words that the chief executive had no right to interfere with a sovereign State.

## Cross The U. S. Flight In Light Of Day Planned

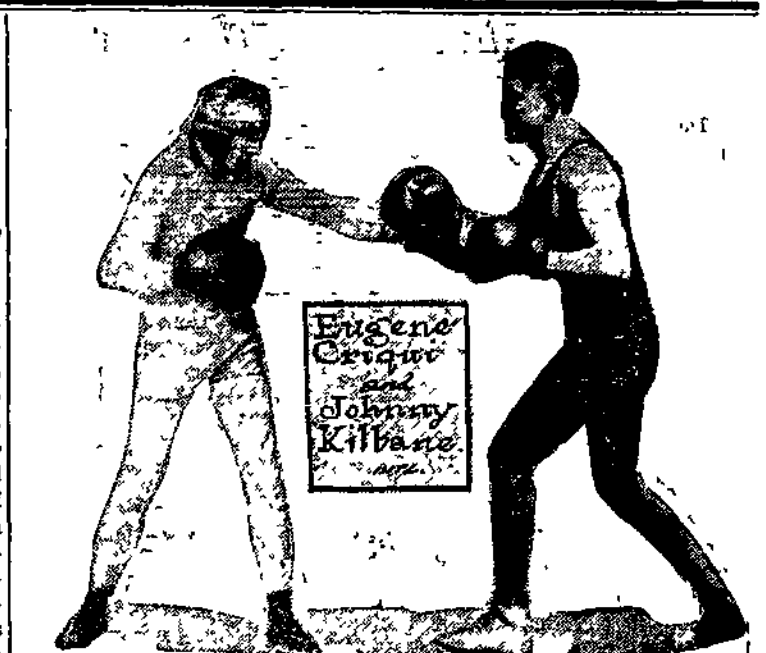

DAYTON, OHIO, June 2.—Lieut. Russell L. Maughan will attempt his "dawn to dark" transcontinental flight on June 18, McCook Field officials announced today.

A Curtiss Bullet is being groomed for the flight.

DETROIT—Mrs. Rose Pollock left divorce court very enthusiastically. Besides granting her a divorce, the judge assured her she was not "too fat" as her husband had claimed.

Plans are under way for doubling the production of emery ore in Greece, the world's chief source of supply.

Made of bamboo with a metal ferrule, a holder has been invented for short ends of erasers used by draftsmen.

The above is a photograph of Johnny Kilbane and Criqui, French pugilist, now lightweight champion of the world, having knocked out Kilbane in the sixth round of yesterday's battle.

Mrs. H. M. Garwood, who has been visiting her sister Mrs. A. H. Berry has returned to her home in Houston.

R. A. Wagner left for Corsicana Saturday on business.

H. L. Clare left Saturday on a pleasure trip to Dallas.

James Riddle and Rufus McKinzie returned home Thursday morning from Castle Heights at Lebanon, Tenn.

A K. Barron of Groesbeck was a visitor in the city Friday.

Miss Evelyn Ruth will spend the week-end with relatives in Dallas.

Cecil Peyton will soon return home from Brown's Hospital where he underwent an operation.

HERE TO STAY—Summer session begins June 1st—Enroll now—Sunclair Business School, 110 Spang Bldg.

Saturday morning, at Houston, Mr. H. C. Freeman of this city and Mrs. Ethel W. Holtscheld of Houston, were united in marriage. The quiet affair was celebrated at the home of the bride's sister, Mrs. H. D. White. The happy couple left immediately for a few days' bridal trip "Somewhere in Texas." They will return to Mexico in the near future, where they will make their home, at 207 South Can-ton. The bride has been a member of the Houston Public Schools faculty for the past twelve years. Her family are pioneers in Texas, having been among the earliest settlers to locate in Huntsville. She is loved and admired by hundreds of friends who will be pleased to learn of the happy wedding of Saturday. The groom is a well known citizen of Mexico, also a member of a pioneer and highly respected family of this section. They were married by Rev. Hardy, a Presbyterian minister of Houston.

# Get Rid of Your Hardest Kitchen Work

Actual tests prove that even in the so-called "modern" kitchen you take miles of useless steps each day. You are forced to stand—when you ought to be sitting down. Your nerves are kept on edge by a host of petty worries—when you ought to be relaxed—in an easy chair.

# HOOISIER

Saves Time, Work and Worry

Many HOOISIER owners tell us that while they thought they had "easy" kitchens before they bought the HOOISIER—they now see that they were actually wasting hours each day.

No woman can realize the amount of useless standing, walking and lifting she is forced to do, until she uses the HOOISIER.

This statement is proved true by the two million women who formerly worked as hard as you do—but who have won freedom from their most trying drudgery by means of the HOOISIER.

There is no substitute for the HOOISIER.

And that is not all. A high grade kitchen cabinet is made to last a life-time. The average family buys but one. You cannot afford to take chances on securing anything less than the best.

According to the verdict of its two million users, the HOOISIER is that best cabinet.

A HOOISIER for Every Type of Kitchen.

Even if your kitchen is equipped with built-in cupboard and cases, you need the HOOISIER. For built-in equipment causes you to scatter your steps—unless you also have a HOOISIER.

No matter what type of a kitchen you now have, there is a HOOISIER to fit it—and to fit your purse.

Easy Terms Enable You to Afford THE HOOISIER NOW

You do not need to go on doing your work in the hard, old-fashioned way. We will put the HOOISIER in your home on dignified, easy terms.

Investigate.

Be sure you see the two-page HOOISIER ad in the June 2nd Saturday Evening Post.

# Three Courts Are To Be In Session In Limestone County In June

## Two District and County Court To Meet

Monday will begin a very busy period for the judiciary of this county. The legal profession, too, will have plenty to do. Business will be rushing for the attorneys of the county. Hundreds of citizens, too, will be at the court house for jury service, as witnesses or as interested spectators if not participant in the cases that will be heard.

For the first time in the history of the county there will be three courts in session at one time. The county court, with Judge Fountain Kirby will begin its June term. The county court now meets twelve times a year, according to the new schedule recently adopted.

The other two courts to convene Monday will be the two district courts serving Limestone County.

Judge A. M. Blackmon will convene June, July term of the 77th District Court. A jury has been summoned for the four weeks of June and there will also probably be a jury for the month of July.

The 87th District Court with Judge Bell of Tague, on the bench will continue its May June session.

The Groesbeck Journal on this subject says:

"This court was created by the last Legislature and this its first session in Limestone County for work. A large number of cases have been disposed of by this court during the past four weeks. Many new cases have been filed in this court since it was instituted and the docket is made up from these filings and from cases transferred to Judge Bell's court from the 77th court."

The county court with Judge H. F. Kirby will begin its June term next Monday also, making the third court to be in session here during the month of June. The terms of Judge Kirby's court have only recently been changed to meet every month, making twelve terms in the year instead of six heretofore, by an order of the Commissioners' Court.

The housing of these courts is a difficult proposition with only one court room available. The 77th District Court will hold its sessions in the court room at the court house, the 87th court will probably be housed in the Wood building which has been rented for that purpose while the County Court will probably have to be held in the office of the County Judge. Judge Kirby's court will experience the most inconvenience as the office of the County Judge is not large enough to permit of much court work. The 87th court will be inconvenienced in that it will be out side of the court house and out of touch with the District Clerk and the Sheriff's department.

Heavy dockets await the action of all the courts. It has been noted that in the District Court especially, new cases are being filed faster than the courts can possibly dispose of cases already on the docket so that the dockets are always more or less congested.

## Ticks Disappearing From Herds In Limestone County, Says State Representative Here Thursday

T. J. Fortenberry, inspector in charge of tick eradication in Limestone County, was here Thursday in the interests of the service. He stated that his monthly report of conditions in this county shows that there are 32,930 head of cattle in Limestone and 3,073 herds. Three of these herds show infection. Eleven head out of these herds show infection. The record, he says, shows much improvement, due to the co-operation extended by the citizens of the county.

He further said:

"The people generally have co-operated with us in our effort to reorganize tick eradication work. We much appreciate this, and hope to have their continued support. No doubt we have located most of the ticky premises."

"We wish to say that there are just a few who are not making the proper effort to dip each animal each dipping day. Please get it well fixed in your

minds how necessary this is. If just one animal is permitted to go without being dipped and it drops just one tick, this tick will hatch out several thousand ticks; and from this bit of negligence you are caused much trouble and time. It will pay each owner to make a very, very special effort to get each animal. In short, make the same effort you would make if you were offered fifty dollars for cows and eighty for steers as during the high price period. You know you would get them then and you can get them now if you will just make up your minds to do it. Think this over seriously, as it means much. If you dip each animal each time you can finish within nine months from the last time fever ticks are found. Some have dipped a part of their herds for nearly five years and still have ticks. It will pay to dip close each time and finish rather than keep up this kind of dipping for years to come. Help us help you; we want to see the work finished."

### MARRIAGE LICENSE

The following marriage license were issued during the two week period ending Tuesday, May 29:

L. L. McDaniel and Lorena Johnson.

E. D. Hainy and Loverette King.

J. E. Bickens and Winnie Washburne.

Emmie Haynes and Elizabeth Puckett.

I. B. Saddler and Mary Applegate.

Robt Curry and Nimmie May Phillips.

Thomas Smith and Ella Mae Carpenter.

J. B. Nichols and Catherine Cubage.

Ernest Brady and Thelma McGovern.

Geo. Allen and Charity Anderson.

Johanne Burgess and Ella Mae Holliday.

C. B. McDonald and Maudie Lee Bounds.

Jay Williams and Pearl Tournsell.

Henry McBride and Gretchen Lash.

Alvin Johnson and Laura Manning.

Jim Williams and Ada Douglas.

Lester Burton and Ella Mae Freeman.

John McPherson and Lee Ella Smith.

Fred Manning and Hazel Mae Dodson.

Fred Fisher and Romie Keeling.

Jessie Jackson and Hester Chambers.

Lee Harper and Evelyn Brown.

Frank Nelson and Lona Rogers.

## \$6,000 FIRE AT SNOWDEN-McSWEENEY WELL

## Two Children Killed By Lightning In Dallas Storm

### EIGHT YEAR OLD BOYS DIE; 4 HURT

Dallas, June 2.—A bolt of lightning striking a play "store" of neighborhood children here shocked out the lives of two small boys.

As the children, just out of school for the vacation, busied themselves selling lemonade to passersby, the shock came, killing 8 year old Harry Frather and a chum of the same age, David Bettison, Jr. The boys were "customers" at the lemonade stand. Four others were injured, three of them small boys and the other a negro nurse who ran out to get one of them when the storm threatened.

WHITE PLAINS, N. Y.—Edmund J. Bryan, bond salesman, will spend six months in jail because he entered the street on which his wife lived. He had been on parole after arrest for annoying her.

BEAUMONT.—White Griggs, Postmaster at Burkeville, Newton county, was released under bond of \$3,000 following his arraignment before J. B. Morris, United States Commissioner to lead to a complaint filed by D. J. McKinley, Post office Inspector. The Commissioner alleged that the postal funds were short \$2,914.058. Griggs pleaded not guilty.

### Y. M. C. A. BUREAU SENDS A MAN TO HELP MEXIA

Sherman W. Dean of the Building Bureau of the International Committee of the YMCA was in Mexia Friday in Consultation with Dr. Bayless, Jesse F. Denning, members of the Campaign Committee and the Board of Directors with reference to proposed plans for the YMCA.

It is understood that Mr. Dean was in Mexia in an advisory capacity and spent several hours in consultation with the committee.

### Collier Gets Krupp's Home In Germany

Bertion G. Collier, New York advertising magnate and Deputy Police Commissioner, has leased for the summer the famous Meisebeck Villa, the magnificent estate of Frau Bertha Krupp van Bohlen, owner of the Krupp works, at Essen. The estate is located in Baden and is valued at \$1,000,000.

### Noe Invokes Past Trying to Prove Evolution Theory

CHICAGO, June 1.—Scientific theories of evolution are antedated and revised by discoveries of prehistoric all fossils of botanical life in Mid-Western coal mines. Prof. Adolf C. Noe, a professor of paleobotany of Chicago University made this announcement today.

"Fine lines and tracings in 'coal balls' from mines in Illinois, Texas and Iowa and other States show that flowering plants of high development existed on earth when, according to present scientific theories, only low forms of moss grew."

A fossilized outline of a plant similar to a cornstalk was found in an Illinois coal ball, Noe claims it existed millions of years ago.

### CIVIC LEAGUE COMMITTEES ANNOUNCED BY CLUB

The Civic League held its first called meeting at the new Public Library building Thursday afternoon of this week.

The organization came into being the week before, when J. K. Hughes tendered the city of Mexia a plot of twelve acres of land within the residential district of Mexia, asking that the ladies, as custodians, take charge immediately and undertake a campaign for its beautification.

Mrs. Weaver Barnett was elected President of the Civic League which sprang to serve this particular purpose at this time, as well as to perform other acts of service for Mexia in the meantime and hereafter.

At the meeting Thursday, it was decided to meet the first Thursday in every month.

Plans for the perfection of the club and also to work in connection with the City Park Beautification and other kindred subjects were considered and as a result the following committees were appointed:

Constitution and By-Laws—Mrs. David Murphy, Chairman; Miss Julia Kaul, Mrs. E. L. Smith, Mrs. R. D. Morgan.

Finance Committee—Mrs. A. H. Berry, Chairman, Mrs. Ben Smith, Mrs. Julius Desenberg, Miss Kathrine McGrail.

Publicity Committee—Mrs. A. G. Adair, Chairman, Mrs. Geo. Peyton, Mrs. E. Nussbaum, Mrs. J. I. Riddle, Membership Committee—Mrs. Sam Cox, Chairman, Mrs. A. H. Eubanks, Mrs. Gene Sinclair, Mrs. W. M. White, Clean-up Committee—Mrs. W. C. Wilson, Chairman, Mrs. Rex Forrest, Mrs. Nelson Forrest, Mrs. Julius Nussbaum.

Advisory Board Committee—Mrs. J. K. Hughes, Chairman, Mrs. A. H. Berry, Mrs. Geo. Peyton, Mrs. Jack Womack, Mrs. Weaver Barnett, Mrs. A. G. Adair, Mrs. Sam Cox, Mrs. David Murphy, Mrs. W. C. Wilson. Grounds Committee—Mrs. Jack Womack, Chairman, Mrs. R. D. Morgan, Mrs. Geo. Peyton.

### Clara Phillips Goes Back to Jail

LOS ANGELES, Cal., June 1.—Clara Phillips will be placed in the Los Angeles county jail from which she made her dramatic escape last December when she arrives here tonight, authorities indicated.

Chief Deputy District Attorney Asa Keys, following a conference with Judge Paul J. McCormick and sheriff's said Mrs. Phillips would probably be held in the jail for five days for technical reasons and then it is intended to transfer her to the penitentiary at San Quentin.

On her arrival the convicted hammer murderer was officially notified that her appeal for a new trial has been nullified, as a result of her escape.

### CRUIQUI WINS LIGHTWEIGHT CHAMPIONSHIP

NEW YORK, June 2.—Eugene Criqui, European featherweight champion won the featherweight championship of the world here today when he knocked out Johnny Kilbane in the 6th round of a bout scheduled to go fifteen rounds.

NEW YORK.—Wishing to celebrate her 102d birthday, Mrs. Frances Mary Wright, was forced to hold the party at the home of one of her grandchildren. She has outlived all her children.

### Wichitans Out Thousands To See Klan Service

WICHITA, KAS., June 2.—Curiosity of the people of Wichita over secret rights of the Ku Klux Klan is still unsatisfied because of the setting chosen by the local chapter to initiate its 652 candidates last night. Wichita was out by the thousands, but the north end of Laird aviation field was about as close as any got. The initiation took place about a half mile north of west of there.

Mrs. Lamar, wife of Bunkie, La., is here on a visit to her parents Mr. and Mrs. A. M. Stevens at 800 East Hopkins street.

### ATTICUS WEBB SAYS ZWEIFEL NOT LAWYER

Dallas, June 2.—United States District Attorney Henry Zweifel of the Northern district of Texas, was today charged with incompetency and failure to prosecute criminals, in a letter to Attorney General Daugherty from Atticus Webb, superintendent of the Texas Anti-Saloon League. Zweifel is not a lawyer and never had a case in court until he was appointed district attorney, the dry leader asserted. He made specific charges of the alleged failure of Zweifel to prosecute law violators.

### Two Americans Released From Their Captivity

By RAY G. MARCHALL  
Pekin, June 2.—J. A. Hanley, of New York and Edward Elias, Americans and two other foreign captives taken by Chinese bandits from the wreck of the Shanghai-Pekin Express and held for ransom, were released today. The foreigners were carried in chairs from the bandit camp in the Shantung hills and arrived at Tsao Chuan. The other two released, were Vera and Sappiere, the former a prominent Mexican. The brigands are to be taken back into the Chinese army—one of the stipulations upon which freedom for the foreigners depended.

### SPARK IGNITES WELL WHILE TUBING IS PULLED

At about one o'clock Saturday afternoon, a spark ignited the Snowden-McSweeney well on the Longbotham at Currie doing considerable damage before brought under control.

At the time of the occurrence, J. P. Dunnaway, of the Kaufman Street Grocery, accompanied by his brother-in-law, C. H. Hon of Denning, New Mexico, were visiting the Morrow section of the Currie field which is near Wortham and saw the spectacular blaze soon after its origin.

At the Longbotham number 5 well, which has been producing around 200 barrels of oil for some time, drillers were pulling the tubing when the flow raised the tubing a short distance and then fell back. In the drop, a spark flashed as the tubing struck against the control head. The fire raged for quite a while, E. M. Zada, lease foreman for Snowden-McSweeney, states that the conflagration caused the loss of the standard rig, tubing, derrick and some oil, entailing a loss, it is estimated, around \$6,000. Fortunately, on one was hurt in the fire.

### SIX BURN TO DEATH

Toronto, June 2.—Six persons were burned to death when fire destroyed the home of Silas Stanlake in the village of Scion, near London, Ontario.

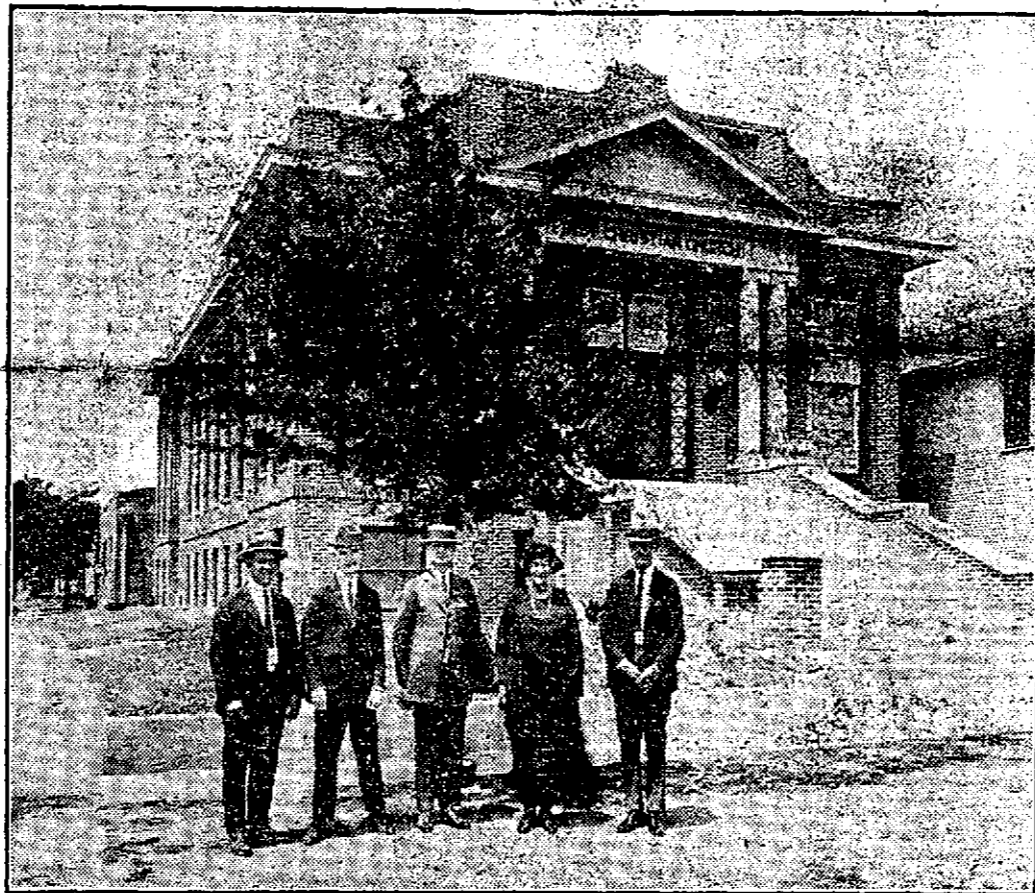

### FIVE MEASURES SIGNED AND ARE MADE LAWS

Austin, June 2.—Governor Neff today filed with the secretary of state five bills to become laws as prescribed by the provisions of the bills. Three of these bills were approved and two were filed without the chief executive's approval. The most important is the Coffee oil production tax bill. This carries a tax of 2 per cent on gross receipts. This is an addition of one-half of one per cent over the old rate. The bill to bring commercial motor truck and motor bus and jitney carrying passengers or freight under the supervision of the State Railroad Commission and declaring them common carriers, was approved. The \$400,000 deficiency bill was approved.

### Actress, Vindicated, to Sue for Million

Miss Stella Larrimore, actress, announced that she will sue Geraldine Farrar, opera star, for \$1,000,000 for alleged defamation of character. Miss Farrar had named Miss Larrimore in her suit for divorce against Lou Tellegen, the actor, but the charge was withdrawn in court, and Miss Larrimore was judiciously vindicated. Supreme Court Justice Lehman, of New York, ordering her name stricken from the divorce complaint. She had demanded a jury trial.

FIRST CHRISTIAN CHURCH  
REV. G. T. REAVES, Pastor  
Mexia, Texas.

Building Committee: Carl Davis, J. E. Baxter, C. O. Sergeant, Mrs. T. G. Gamble and W. B. Kendrick.

### POWELL AND CURRIE HOLD INTEREST OF OIL FRATERNITY AS DRILLING RIGS RUN SPECTACULAR RACE FOR BIG OIL RICHES

#### THE MEXIA NEWS WANTED BY NEW ORLEANS FIRM

Jas. O. Jones of the Jones Investment Company of New Orleans writes: "Evidently our name has slipped off your mailing list, as the last paper we received was dated Friday, May 25. Please look into this as we are anxious to get your paper every day." Mr. Jones formerly resided at Kosse where he has large interests. He is well acquainted here, has been a reader of The News all through the oil boom and knows the local newspaper to be the "old reliable" when it comes to dependable information.

SAN ANTONIO, June 2.—San Antonio is soon to have a new pipe factory which will give employment to about fifty men, according to William A. Burr, geological engineer. The plant which will manufacture lead pipe from Mexican ore will have a capacity of about ten tons daily. The ore will be smelted at the mines thus eliminating the cost of transporting waste material. Burr's company has a capitalization of \$100,000 principally from San Antonio and Mexican business men.

Miss Bobby Line and Miss Rosa Felz left Saturday for a week-end to visit friends and relatives in Dallas. They will visit Miss Annie Laurie Louis, formerly of Mexia.

The J. K. Hughes Developing company now has seven wells drilling near its McKie in the Powell oil field. The original producer on this lease is maintaining its heavy production consistently and steadily. The record shows that the gusher is yielding within a hundred and fifty barrels or less of 6,000 barrels every twenty four hours. The production is being sold to the Magnolia Oil company for \$1.25 per barrel.

The same company's Morrow 1 at Currie has never fallen below 1100 barrels daily since it came in April 26. Mr. Hughes stated Saturday that this well would likely produce a quarter of a million dollars worth of oil or more before what is known as flush production, augmented by gas pressure, declines.

In speaking of the value of the McKie oil bearing properties and the lease on which the J. K. Hughes Developing company's McKie is located that he would not favor disposing of same for \$2,000,000. Oil men assert that this property alone is worth the full capitalization of the company.

Three more wells are expected in soon at Currie in the vicinity of the valuable Morrow.

The Texas company's Morrow 1, second well, is down 2,687 feet. The Texas company's number 2 is down 3,132 and will set casing early this week.

The Texas company's Stroud No. 1 (Continued on page six)

#### MEXIA COTTON MILL CONSIDERED MONDAY

The Chamber of Commerce is in receipt of a letter from L. W. Robert of the Cannon-Robert interests to the effect that he has just returned to Atlanta from a business trip and that during the week beginning June 4th he would be in consultation with M. L. Cannon with reference to the Mexia situation, and that he would write fully from Concord, N. C., and doubtless visit Mexia within the near future.

At the Lions club meeting Friday, Jean Ormsby, Circulator for the Mexia Daily News, had charge of the program and presented one of the most interesting and entertaining yet given. The Elk's Orchestra, under the leadership of Charles L. Clover, Secretary of the Elk's club, presented several splendid numbers, included in was an Overture and a March "Lions Parade." This special number was enthusiastically received by the Lions, another number was an aesthetic dance by Little Miss Eoline Watson, accompanied by Miss Beth Ellington on the piano. The final feature was a three round boxing bout between "Ver-non and Killion", "Real Acrobats" the program, announced, following which those looking on and applauded did "shower down." Every number was a rare treat.

### COMMENCEMENT SERVICE AT BAPTIST CHURCH

Senior Class night was observed Friday night. The graduates of the High School here held this part of the Commencement exercises in the new auditorium of the handsome new High School building on Red River and Grayson streets. Chairs had been placed in the auditorium for that occasion and the hundreds who assembled had their first opportunity to admire the new structure, the beautiful stage, its handsome curtains and also to enjoy the program which the graduating class presented in splendid fashion.

The Baccalaureate sermon will be preached today at the First Baptist church, Rev. Daniel E. Greider, A Presbyterian pastor from Terrell will deliver the sermon to the class of twenty eight members. Mr. Greider has visited here on several occasions and those who have heard him are enthusiastic in their praise of his towering ability as a speaker. Special music has been arranged for the occasion and a great service is expected.

Monday evening, at the High School auditorium, Dr. T. D. Brooks of Baylor University, will deliver the Commencement address to the class of '23.

The following are those who complete the course of study in The Mexia High School. Jim Smith, president; Mildred Cox, secretary and treasurer; Dick Atkinson, Allen Bryant Cecil Dunlap, Jack McKinney, Griffin Thrift, Fred Hoskins, George Wall, Janie Berry, Blanche, Crider, Myrtle DeLong, Lochin Farrar, Bernice Farris, Lucille Heskins, Elizabeth Karnar, Lucille Kennison, Eugenia Koltz, Hazel Laird, Dorothy Moore, Dorothy Parker, Melba Petty, Clota Faye Randall, Gertie Mae Rogers, Celeste Sellinger, Euleta Sharp, Nannie Lou Tinson.

Thursday of this week, Attorney General W. A. Keeling made a tour of inspection of the Mexia Oil field district, including a trip to the Powell pool. He was accompanied by William Reed, R. Sheppard and R. V. Nichols of the Humphreys Oil Company.

### Fascisti Methods In French Politics

PARIS, June 1.—Introduction of Fascisti methods into French politics will be debated in the Chamber of Deputies.

Following the man-handling of three Socialist leaders, who were shampooed with purple ink, forced to drink castor oil and rolled in the mud, Deputy Herriot announced he would interpellate the Government concerning the episode.

As the three Socialists—Deputy Moutet, Marc Sagnier and Former Minister Violette, were leaving their homes late last night they were stopped. The attacks, it is said, were aimed to prevent the three from attending an "anti-Fascist" meeting.

## ORGANIZED CHRISTIANITY

"Take heed therefore unto yourselves, and to all the flock over which the Holy Ghost hath made you overseers, to feed the church of God, which He hath purchased with his own blood." Acts, 21:28.

The church is the organized Christianity of the community. The church is a school of Christian character ready to do its work. There are those who claim that they do not need to attend church—they can be religious at home. The same people could also educate their own children at home but they prefer to send them to an organized school because as a whole organized schools do better. Teachers are not all sages but they render the children a service that they could not receive in any other way. People could be religious at home, but how many of us spend an hour or two on Sunday in reading scripture, in prayer, in attention to some phase of Christian duty and privilege?

The church by its prayers, its music, its lessons lift the thought and aspiration of a congregation to higher levels.

The church does not contain all the good there is but it holds the larger proportion.

## MAKE THEM WORK

Who would suffer most if the I. W. W. radicals had been successful in demoralizing operating industry on May 1?

The working men and communities where the industries are located.

A man who listens to the talk of an I. W. W. is on a par with the man who looks down the muzzle of a loaded gun while fooling with the trigger.

What can the I. W. W. give the American workmen but demoralized government and unemployment?

Why don't the I. W. W. go to Russia? Because the workmen there are starving to death under the policies which they advocate here and an I. W. W. could not fill his stomach there off the labor of others—he might have to WORK and starve.

The I. W. W. agitators have just been turned down hard but they will not profit by the lesson. They should be rounded up and sentenced to WORK!

## THE GOLDREN RULE ON THE HIGHWAYS.

It has been said "Tell me what you eat and I will tell you what you are." Educators have often remarked, "Tell me what a man reads and I will tell you what he is"—the "what" here is not a gramatical error—for sometimes "animals" display human intelligence at times.

Just so—watch a man in an automobile behind the wheel and you can soon determine what kind of a man or "animal" he is. There is no finer study of the genus homo—or better still no better position in which to judge the kind of a man than that as the driver of one of our modern distance eliminators. Here it is that you can easily tell the selfish man—he sits there behind that wheel as if NO one on earth was out today but Big I. He hugs the middle of the road and dares any man, woman or child to dispute his right to remain there. He swerves neither to the right or left—unless he meets another of his kind and then it's a case of which one moves first. It's not consideration with the road hog. It's a pure case of self-preservation that makes him consider the other fellow in any light.

How often have you seen the man that wants to take his time driving in the middle of the road while some one behind—perhaps a physician on an errand of mercy wants to get by—has to lag there, eat the dust and dirt of the "road hog" until thru sheer desperation the "fellow behind" decides to take a chance and pass with the evident possibility of accident to both.

Again on meeting one of these misanthropes have you noticed how laggardly he decides to give you your part of the road. People forget that the Highways belong to Everyone that wishes to use them. That is his right under the Constitution as long as he uses same sanely and with consideration of the others that might happen along. And when you, for any other manner

## BUGHOUSE FABLES

weights 11 pounds, 4 ounces. There are nearly 6600 Cohens and Cohns and approximately 5800 Smiths and Smyths. There are 223 Abraham Cohens.

—Mart Herald.

That shows where New York gets her people. Of course the Smiths were all natives of this country, while nearly all of the Cohens were attracted to this country because of the many Essex Marks here on which they can prey.

## A FISH STORY.

W. J. Boswell, W. H. Brewor, W. J. Campbell, Wallace Daniels, Ellis Brewor, Ogilvie and Stuart returned Wednesday from Buffalo lake where they captured a 36-pound catfish with a minnow seine. Boswell and Ellis Brewor, while hunting for frogs, discovered the fish on a sand bar and tried to catch it. It got into deeper water and they returned to camp for the rest of the party and procured a minnow seine. Returning they captured the fish and brought it into camp. If this will not pass as a fish story, it's up to some one to tell a better one. And, mind you, this one is true, according to the participants.

—Teague Chronicle.

But all fish stories are true—according to the participants

Marie Price & John Lewis Whitfield.

When Policeman Dennis Griffin, of Cleveland, Ohio, arrested John Lewis Whitfield on a charge of bootlegging, Whitfield asked the officer to permit him to go in to his home to change his clothing. He succeeded in getting into his home, where he hid his automobile. He then returned to the station. On the way he shot Griffin to death and burned his body, hiding it in a shallow grave, where it was found later. Then Whitfield picked up his female companion, Marie Price, and fled. Whitfield was captured in Madison, Wisconsin, but escaped. The woman was held.

woman so disregard the rights of others we often then become criminals in the sight of the law and of man.

But laws do not make gentlemen—and how often has it been stated that a gentleman does not have to wear his insignia on his shirt front. You can tell him by his action toward others and that is just the point in question. There is a road courtesy that marks the status of any man alleging kinship with the genteel arts of conduct and it is not what the other fellow is going to do—but that impulse of feeling that marks the gentleman. There is no law requiring a gentleman to tip his hat to a lady as he passes—certainly not and yet a gentleman does so—without being told. What is it—it is the same innate kinship to the Divine that makes the other fellow see and know the other man's rights when he meets them face to face—no matter whether they are in the street—in your home—the ballroom or on the highway.

A gentleman is never a Road Hog. Therefore be ye considerate of the other fellow that you may not happen to an accident—if for no other reason. Some folks never learn—some never want to—but do your share and possibly we can make it easier for the coming generation. The Golden Rule applies on our modern highways as the safest best law that can be enacted. It needs no preamble and no passing the courts—no signing by an executive. But it does require thoughtfulness and a touch of human kindness. Cheap yet priceless.

## CENTRAL TEXAS PRESS By N. P. Houx.

"Boot-Legg" is the heading over a marriage notice in an East Texas paper, and Sam Miller of the Mineral Wells Index, says, "Now make your own joke about it." We suppose they are liable to go on a big spree and their troubles will all be "little ones."

Texas may have elected men governor who never played a game of baseball, shot a gun or caught a fish, but by the eternal the old commonwealth has never yet called to the office of chief executive a man who would refuse to kiss a pretty woman when opportunity offered—and she never will.

And as Pat says this was his first offense it is presumed that it was his first opportunity, and he is entitled to a suspended sentence.

We've never decided whether writing paragraphs like these is an art, a gift, or a calamity.

—Sam Miller in Mineral Wells Index.

What's the matter with calling it a job?

All over the country there seems to be a movement to rid cities of undesirables. Where do these banished creatures go? Must they be unloaded upon other cities already fully supplied with undesirables? Where do cities get by passing the undesirable back to neighboring communities?

—George Bailey in Houston Post.

They get rid of the undesirables temporarily at least—But the main question is, where do the undesirables come from? The answer is, they come from the homes of the people, and they are undesirables because they were not

properly "raised" in the first place. Too many automobiles and picture shows for parents to have time to look after their children, and every day in some way it seems to be getting "wusser and wusser."

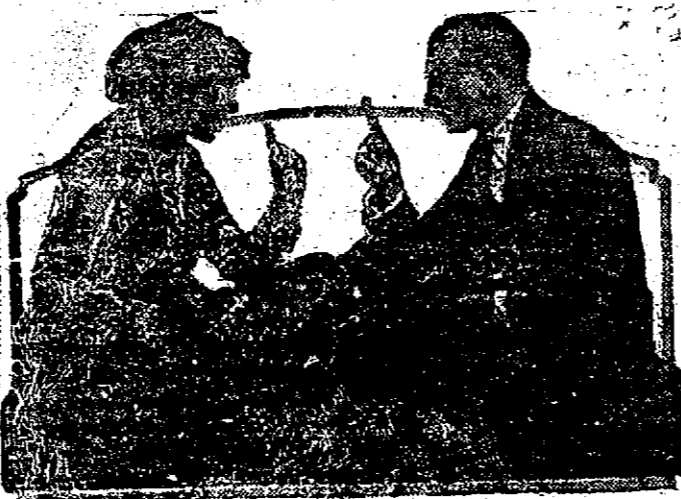

Governor Neff is back at Austin on the job after an eight or nine day jaunt around the circle, which took him to San Angelo, and several West Texas points where a governor of the state has never visited before, and finally brought him to Terrell, Texas, where he delivered an address to Texas Military college graduates, which was a gem in its way. Leaders in the legislature raised a great furore because the governor took occasion to make his trip at this time, when a special session was on and important business of state remained to be transacted. "The state might as well be without a governor," said one critic, unmindful of the fact that the legislature has done considerable jaunting about itself this year. The governor stuck mighty close to his knitting through the two sessions of the legislative body and work that had been set for the legislature to do remained undone when those two sessions were concluded. Perhaps the governor thought that if he would go away for a time the legislature might get in a humor to get down to work. Anyway, we can readily understand why the governor wanted to get away for a rest.

—Terrell Transcript.

Gelsenkirchen

This photograph is of Gelsenkirchen, one of the largest cities in the Ruhr district of Germany, which has been seized by Communists, who hoisted the red flag over police headquarters and fired other public buildings.

## C. of C. Meeting Important To Progress Of Mexia

Announcement as to the coming date of the open meeting of the Chamber of Commerce will be made within the next day or so, and when this meeting is held it is hoped that every business man in town will make a sincere effort to be present and do his best to support the movement.

The Chamber of Commerce is supported by two distinct classes of contributions. One of the contributions is the individual membership fund as is represented by the individual \$12-00 membership, a campaign for which was made in January of the present year. These memberships date from January 1st to December 31st and

are designed and intended only to augment the sustaining fund, which at that time appeared a trifle low for the financial needs of the organization.

The other class of contribution is really the bulk and backbone of the organization which is called the Sustaining Fund and which is made up of the contributions of the different business institutions of the town that are much larger than the individual memberships. These contributions are made from May 31st to June 1st and while the office of the Chamber of Commerce feels assured that most of them will be willingly continued at the same time they have no au-

thority to collect for the first quarter beginning June 1st, 1923 until confirmation and authority is given by the various subscribers to this fund. It is for the purpose of this confirmation that the coming membership meeting is to be held, and the meeting will be entirely of a business character and there will be no long winded speeches and long drawn out oratory. Light refreshments such as sandwiches, coffee and cigars will be served and each business man of Mexia who feels that the Chamber of Commerce should be perpetuated and its work carried on, should make it a point to attend this meeting and not "let George do it". The present management of the Chamber of Commerce has always tried to avoid calling unnecessary meetings and for that reason believes that this meeting should be encouraged.

Other things to come up at this meeting will be the selection of a President to take the place of Geo. E. Petty, who retires with a wonderfully successful record. Mr. Petty is due the unbounded thanks and appreciation of the entire community. He gave liberally of his time and efforts for the Chamber of Commerce, for the town at large, and the best part of it is that he did so in his characteristic spirit of generosity and good fellowship. Don't "let George do it" any longer for George has been faithful and some public spirited citizen who has the interest of the community at heart, should accept Geo. Petty's mantle as his public duty.

The Chamber of Commerce does not feel that any boasting of achievements is necessary to justify its existence, and what is herewith recounted is not mentioned in a boastful spirit but merely as a matter of business. During the past year they point to the following principal achievements.

First, of all and most important of all and without which no good can be accomplished, they point with pride to a united citizenship. The Master Himself said "A house divided against itself cannot stand", and Paul, the great Apostle, said "Be ye of the same mind one toward another" and this is primarily the object of a Chamber of Commerce.

During the year just closed, con-

siderable street work has been done and the opinion has been expressed outside the office that but for the work on the streets, sidewalks and crossings, they would have been impassable during the bad weather.

Previous to the present management the Chamber of Commerce was largely responsible for the passage of school, paving sewer and water works bonds and has been in the front rank of every campaign for the advancement of the community.

During the year just closed, in addition to the street work above mentioned, a few of the accomplishments of the Chamber of Commerce including the securing of adequate train services during the Kosses boom, the securing of \$50,000 appropriation on X-All Highway and raising \$25,000 in private subscriptions for the same project, the raising of the fund for the Y. M. C. A., the successful campaign for subscriptions to the Cotton Mill, work in harmony with the

City Government, the County Commissioners Court on all public movements; improvement of South Belknap Street and others of less magnitude, including countless acts of individual service which should at all times be continued.

With conditions such as they are at the present time, those who have given the matter study, believe that there is more need of a Chamber of Commerce during the coming year than ever before and an article along this line will be offered for Monday's paper.

The things slated for accomplishment within the coming year are:

Proper organization of a Home Building Campaign.  
Building of a creamery.  
Building of a packing house and cold storage.

Oil refinery.  
and such other projects as shall appear feasible and practical. Two of these projects mentioned above will

## Scenic School For Denverites

DENVER, Colo., June 2.—Courses in scenic instruction, amounting to a class in geography for grown-ups are the latest in Colorado in anticipation of the army of tourists who will spend their summer vacation in the Rockies.

Hotel owners have taken their assistant managers and desk clerks on excursions into the mountains so they, in turn, may advise strangers more intelligently than formerly about sight-seeing trips.

Tourist drivers of Colorado Springs are completing a course of instruction fostered by the city administration, not only for certificates of competence,

but to meet qualifications in explaining the scenic wonders of the Pikes Peak. College students are the only applicants considered for bus drivers by one of the largest transportation companies in the state because they can best explain the geological, historical and scenic phases of the journeys to their passengers.

The familiar "redcaps" at the Denver union station have also been schooled in railroad and scenic information so they may be able to direct the tourist on various trips throughout this section thus relieving the traveler of the worry and care of looking up journeys.

The manufacture of cement requires finer grinding than any other industrial process used on so large a scale.

It is estimated that there are more than 25,000 radio sets in Argentina compared with less than 100 a year ago.

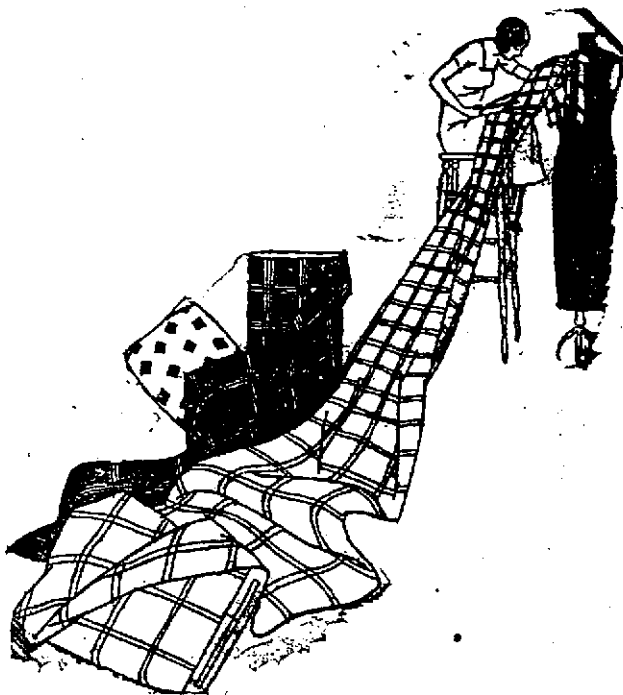

# Cheeves Bros. & Co.

"Mexia's Greatest Department Store"

# YOU

—IS A SMALL WORD IN SIZE BUT A GREAT ONE IN THE OPERATION OF THIS STORE. YOU ARE THE FIRST CONSIDERATION IN BUYING MERCHANDISE; YOU ARE CONSIDERED VERY SERIOUSLY BEFORE PRICES ARE MARKED ON THE MERCHANDISE; IN FACT, YOU ARE ALWAYS UPPERMOST IN OUR MIND BEFORE ANY TRANSACTION OF ANY KIND IS MADE!

### Attractive Morning Dresses:

—Nothing is more appropriate for making pretty and dainty morning dresses than the light weight tissue ginghams. The stock is very complete now for your inspection.

### Dresses for the Little Girl:

—What is prettier than a neat little child's dress of Crepe? So easy to launder, too. The stock in this section is complete with the wanted patterns.

### A Neat Percale Apron:

—Is indispensable in performing the many tasks that arise in the daily routine of the housewife. You will find that aprons made of the Standard percales in our immense stock will give you real satisfaction and can be made remarkably attractive to look upon.

### For Out-door Wear—Ratine:

—That ever popular material for out door and sports wear. We have a remarkable assortment from which you can choose, almost any can be made into charming dresses. Come in and see the display in our piece goods department.

### The Touch of Lace:

—Transforms the common place into the unusual. We have lovely designs in our large new assortment of laces.

### For Dainty Undergarmentry:

—The stocks of "A. B. C." Silk—"Betty Chygne" and Wash Crepes are wonderfully adaptable to the making of dainty articles of lingerie for the summer season.

We Sell  
Nationally

Advertised  
Goods

I spend my money like all the wise  
For stuff other "live ones" advertise.  
When I go to bed each night at ten  
I leave my call with a "BABY BEN"  
Next morning—here's my regular dope  
A "CRANE" bath tub and "IVORY" soap  
With "TURKISH" towels, I scrub my knees  
Then slip my shanks into "B. V. D.'s"  
My Breakfast—"KELLOGG'S TOASTED FLAKES"  
With a strip of "ARMOUR'S" on "BUCKWHEAT CAKES"  
Then I go on a coffee "souse"  
With about three cups of "MAXWELL HOUSE"  
Then I kiss my "wifey" once or twice—  
Before the man comes with "PHILLIPS" Ice  
I "beat it" to town with all my might  
In a car advertised as the "WILLYS-KNIGHT"  
I work in "PATTERSON'S JEWELRY STORE"  
Where you get your money's worth and MORE  
A "DUNLAP" hat is on my bean  
Wear "NETTLETON SHOES" size seventeen  
Drink "FAIRFIELD HOOTCH" from down on the river  
Peddled by a Guy in a second hand "FLIVVER"  
Sell "VICTOR MACHINES" and "COLUMBIA'S" too  
(A few dollars down brings one to you)  
Sell "HOWARD WATCHES"—one is in my pocket  
It brings more coin when I have to hock it  
When I crave amusement—I always go  
To the "GRAND" or the "NATIONAL" picture show  
I work like — from seven to ten  
Then toddle back home, and to bed again  
And when I doze away and begin to snore  
I rest my bones on an "OSTERMOOR"

## Immigration Law Bars "Empire of Siam"

Margaret Storm, four-

teen, was "born in the barred zone", as the immigration records at Ellis Island, New York, have it, she has been refused admittance to this country and ordered deported. Her father is a German of culture and once was a wealthy jeweler, but she has been made to suffer because her mother was a native of Siam, which country is in the "barred zone." The girl is educated and refined and very pretty. She was sent here for adoption by her uncle, Reinhold Storm, of Carlos, Minnesota.

Among recent new members added to the Rotary club here are R. A. (Dick) Wagner, Typewriter and Stationery, F. P. Huchingson, Railway Transportation, and Glen. Kahle, oil operator.

The government of Argentina will establish a naval aviation school near Buenos Aires.

An attachment has been invented that converts an ordinary claw hammer into a pipe wrench.

Financed by the government, the largest irrigation dam in the world will be built in India.

For use about railroad cars a jack has been invented that can exert a pull or push of ten tons.

## T. A. GOSSIP

By HECK

With another week now past history the Texas Association starts another with no relative change in the standings of the clubs. The Gushers with Saturday's victory over the Gumbo Busters increased their lead over Sherman to five and one half games when the Sox and Bathers were idle from rain. Austin's two straight wins over the Indians proves that the Rangers have finally got going and can now be counted to win and liable to beat any club. Their even break with the Gushers in four games is the best they have done against any club to date and when they beat House and Schmid, two of Waco's best hurlers they did something worth while. Marlin is slowly but surely slipping due to terrible work on its infield and cannot hope to climb the ladder unless prompt action is taken to bolster up two weak spots in their infield. Waco is making a helluva lot of noise about how wonderful their ball nine is but don't seem to be getting anywhere in spite of the ballyho. Jack Shires had the Indians going like blue blazes but Dupuy got dizzy again and put in a new manager and bloopie the Indians again. The Red Sox are 'stumbling along and since the other clubs have found that Swede Ling is easy to beat the Sox are finding the going tough. Frierson and the balance of the Sox sluggers have dropped to zero and in spite of the great pitching of Muns and Richburg the Sox are slowly slipping. Corsicana with its flock of old soldiers is just breaking even and it will soon be up to Grubb to get some live youngsters in the line up to keep the balance of the club from doing a regular Rip Van Winkle sleep. As it stands, the Gushers are in no immediate danger of losing the lead and with the 12-day home stand opening June 7, there should be no doubts about the future.

## Army Of Pro Officers Mobilized To Combat Action Of N.Y. Leader

Chicago—Police for a year thought John Thomas was selling "dope" but couldn't find his supplies. They finally located the cache in Thomas' wooden leg.

CHICAGO—A man can't be sent to jail for fooling with his own alarm clock, in the opinion of City Attorneys commenting on efforts of the state legislature to prevent daylight saving in Chicago.

NEW YORK, June 2.—An army of Federal prohibition enforcement agent was mobilized today, ready to be thrown into New York if Governor Smith's action in approving repeal of the enforcement act results in a "booze rebellion" in this State.

Although Smith, in signing the repeal, warned the wets that the Volstead law was still in effect, and that every citizen should obey it, thousands of liquor vendors are believed ready to take advantage of the situation and begin "wide open" booze selling.

President Harding, in a recent letter to a citizen of Newburgh, N. Y., stated that the consequence would be very serious if any State permitted violations of the prohibition law, and strongly hinted that the Federal Government would intercede in any such State and take over control of dry law enforcement if necessary.

Palmer Canfield, Federal prohibition director here, has already called a conference of sheriffs and police chiefs to arrange co-operation in enforcement of the Volstead law. The date has not yet been fixed. Canfield said it was imperative that the small number of Federal Agents be reinforced by the State police officials. Smith, in signing the repeal, made it clear that he was not acting in defiance of the constitutional amendment. He emphasized that, with two prohibition laws in New York, one State and one national, citizens were subject to be punished twice for the same offense. "double jeopardy," and were liable to The State law was necessary and should be repealed in the interests of the rights of the citizens, he said, in a long statement explaining his action. He replied to the letter of President Harding by pointing out in courteous words that the chief executive had no right to interfere with a sovereign State.

## Cross The U.S. Flight In Light Of Day Planned

DAYTON, OHIO, June 2.—Lieut. Russell L. Maughan will attempt his "dawn to dark" transcontinental flight on June 18, McCook Field officials announced today.

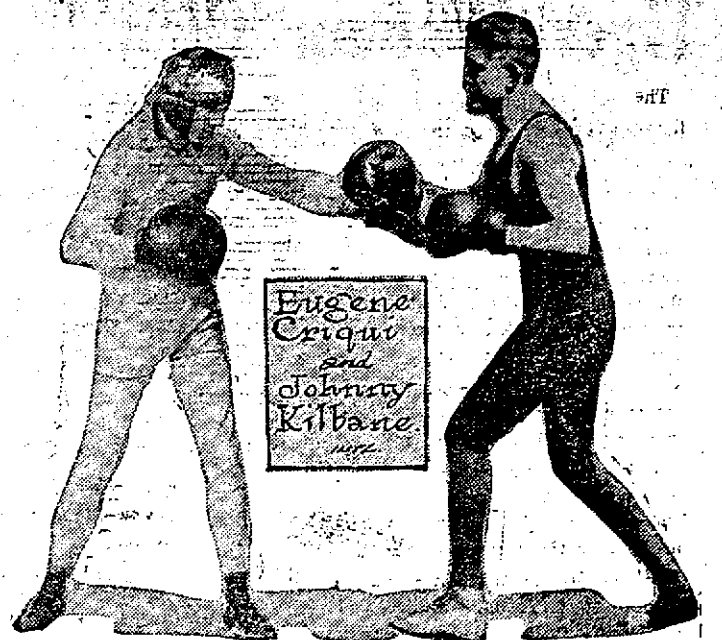

A Curtiss Bullet is being groomed for the flight.

DETROIT—Mrs. Rose Pollock left for the flight.

Besides granting her a divorce, the judge assured her she was not "too fat" as her husband had claimed.

Plans are under way for doubling the production of emery ore in Greece, the world's chief source of supply.

Made of bamboo with a metal ferrule, a holder has been invented for short ends of erasers used by draftsmen.

The above is a photograph of Johnny Kilbane and Crique, French pugilist, now lightweight champion of the world, having knocked out Kilbane in the sixth round of yesterday's battle.

Mrs. H. M. Garwood, who has been visiting her sister Mrs. A. H. Berry has returned to her home in Houston.

R. A. Wagner left for Corsicana Saturday on business.

H. L. Clare left Saturday on a pleasure trip to Dallas.

James Riddle and Rufus McKinzie returned home Thursday morning from Castle Heights at Lebanon, Tenn.

A. K. Barron of Groesbeck was a visitor in the city Friday.

Miss Evelyn Ruth will spend the week-end with relatives in Dallas.

Cecil Peyton will soon return home from Browns Hospital where he underwent an operation.

HERE TO STAY—Summer session begins June 1st. Enroll now. Sinclair Business school, 110 Spreng Bldg.

### FREEMAN—HOLLIFIELD

Saturday morning, at Houston, Mr. H. C. Freeman of this city and Mrs. Ethel W. Hollifield of Houston, were united in marriage. The quiet affair was celebrated at the home of the bride's sister, Mrs. H. D. White. The happy couple left immediately for a few days' bridal trip "Somewhere in Texas." They will return to Mexia in the near future, where they will make their home, at 207 South Cant. The bride has been a member of the Houston Public Schools faculty for the past twelve years. Her family are pioneer Texans, having been among the earlier settlers to locate in Huntsville. She is loved and admired by hundreds of friends who will be pleased to learn of the happy wedding of Saturday. The groom is a well known citizen of Mexia, also a member of a pioneer and highly respected family of this section. They were married by Rev. Hardy, a Presbyterian minister of Houston.

## Get Rid of Your Hardest Kitchen Work

Actual tests prove that even in the so-called "modern" kitchen you take miles of useless steps each day. You are forced to stand—when you ought to be sitting down. Your nerves are kept on edge by a host of petty worries—when you ought to be relaxed—in an easy chair.

## HOOOSIER

Saves Time, Work and Worry

Many HOOOSIER owners tell us that while they thought they had "easy" kitchens before they bought the HOOOSIER—they now see that they were actually wasting hours each day.

No woman can realize the amount of useless standing, walking and lifting she is forced to do, until she uses the HOOOSIER.

This statement is proved true by the two million women who formerly worked as hard as you do—but who have won freedom from their most trying drudgery by means of the HOOOSIER.

There is no substitute for the HOOOSIER.

And that is not all. A high grade kitchen cabinet is made to last a life-time. The average family buys but one. You cannot afford to take chances on securing anything less than the best.

Reproduced from HOOOSIER Mfg. Co. ad in June issues of Ladies' Home Journal, Good Housekeeping, and Pictorial Review.

According to the verdict of its two million users, the HOOOSIER is that best cabinet.

A HOOOSIER for Every Type of Kitchen.

Even if your kitchen is equipped with built-in cupboard and cases, you need the HOOOSIER. For built-in equipment causes you to scatter your steps—unless you also have a HOOOSIER.

No matter what type of a kitchen you now have, there is a HOOOSIER to fit it—and to fit your purse.

Easy Terms Enable You to Afford THE HOOOSIER NOW

You do not need to go on doing your work in the hard, old-fashioned way. We will put the HOOOSIER in your home on dignified, easy terms.

Investigate.

Be sure you see the two-page HOOOSIER ad in the June 2nd Saturday Evening Post.

## Tiger Woman Glad She Is Back Home "All In" She Says

LOS ANGELES, Cal., June 2.—"I will tell everything of my relations with the dead girl, Alberta Meadows, I will bare my entire life to save Clara."

That was the anguished cry today of Armour Phillips, as Clara, his wife, with her last hope gone, sped toward San Quentin after a half hour with him here last night.

Only an hour before her arrival, the "hammer murderess" learned that she had been committed to San Quentin and that the appellate court had denied habeas corpus proceedings for an appeal. It was a hard blow and she seemed about to collapse but she rallied and regained her composure.

Once, while standing in the flare of calcium lights while a battery of half a hundred cameras was turned on her, did she waver. She trembled and buried her face in her handkerchief, but regained control of herself and faced the photographers. Perhaps the bright lights reminded her of the days when she worked as a chorus girl.

Armour Phillips, after a conference on the train, agreed to answer questions. He was asked what he had had for supper after Clara came back following the murder of Mrs. Meadows and said: "I've killed the woman you love and now I'll cook you the best meal you ever had in your life."

"She never told me that," Phillips replied. "I never told anybody that."

Undersheriff Biscailuse then reaffirmed that those were Armour's words when he gave information that caused his wife's arrest to the sheriff's office.

Etta Mae Jackson, Clara's sister, who took part in the Honduras adventure, went on with the party to San Quentin, saying she wished to remain with Clara even in the penitentiary.

Phillips asked that he be permitted to accompany the party but his request was refused by the sheriff. Phillips then offered to bare his whole life and alleged relations with Alberta Meadows if the sheriff would keep Clara here and give him a chance to tell his story in court. That also was refused.

Armour petted, kissed and hugged his wife who treated him with what appeared to be indifference.

"Good bye, dear, be sure and write often," was his final parting as the train pulled out. Clara did not answer him.

"I'm glad to be back. I'm all in," was Clara's only comment.

Since escaping from the county jail here several months ago while awaiting transfer to San Quentin to serve her sentence she has traveled over most of Mexico and Central America, finally being captured in Honduras.

(Continued from Page 1)

3 at Groesbeck is drilling at 2387 in the Austin chalk.

The Texas Company's McKie 1 at Powell is drilling around 200 feet. J. C. McCue, assistant general manager of the production department of the Texas company, his assistant, Sim Cox and W. V. Bowles, South Texas General Superintendent were local visitors this week, touring the Powell district where this company may make additional locations in the near future.

J. K. Hughes was in Luling the early part of the week where he secured a small lease for the Developing company. He will be ready to go in and profit by the new discovery there, should the field develop to any great extent, especially if its transportation problems are solved.

Many have visited Mildred, on the T. & B. V. this week, where considerable activity is in progress, to serve the new field. At present it seems that the Mexia section will be looked to to take care of a large quantity of production in the new field. No tank farms have yet been announced at Powell. However, negotiations are said to be under way for one. The Mexia field has available many million barrels of steel storage and the prediction is that Powell will be the most rapidly developed field ever brought in within the state. It faces no limitations, oil men assert.

E. L. Smith, president of the E. L. Smith company, Inc., has been a frequent visitor to Powell this week, in which field this growing Mexia oil company has valuable holdings. The Irving number 1, being drilled by this company, is making rapid progress down. It is considered that the company is assured of a large producer there, as it is directly in line with the trend of big production, southwest of the J. K. Hughes McKie.

The drilling report, under date of May 31, is as follows:

(Usually the drill makes about 100 feet daily.)

Admiral Oil Co., 1 Brown, 3042 shale.

Corsicana Deep Sand Co., 2 Springfield, 2944 feet. Bailing 2000 feet fluid.

Corsicana Deep Sand Co., 4 Springfield, about 500 feet oil in hole.

Corsicana Deep Sand Co., 5 Springfield, located 150 feet east of NE corner Block 12. Springfield field subdivision, Walter P. Lane survey.

Cosden & Co., 1 Springfield, Derrick. Located 150 feet west of 150 feet south on NE corner Block 10 Springfield subdivision, W. P. Lane survey.

Farrish, Watts & Collins, 1 Christian, Derrick. Located 150 feet and 150 south of NW corner, Block 6, Christian subdivision, W. P. Lane survey.

Humphreys Oil Co., 2 Burke, 3172 shale.

Humphreys Oil Co., 1 Kent, 2277 shale—T. C. 1398.

Humphreys Oil Co., 2 Kent, Location.

Humphreys Oil Co., 3 Kent, 1779 shale.

Humphreys Oil Co., 1 McKie, 1438 shale.

Humphreys Oil Co., 2 McKie, 1377 shale.

Humphreys Oil Co., 1 Fair, 1399 shale.

J. K. Hughes Dev. Co., 2 McKie, rigging up. (This well was formerly reported as McKie 5).

J. K. Hughes Dev. Co., 5 McKie, 850 shale.

Sun Oil Co., 1 Christian, Derrick.

Sun Oil Co., 1 Kent, 1250 feet shale.

Sun Oil Co. (305), 2 Kent, 921 gumbo.

Sun Oil Co., (303), 3 Kent, location.

Sun Oil Co., (371), 1 Springfield, rigging up. Located 150 ft. E. 150 ft. N. of S. W. corner Block 5, Springfield subdivision W. P. Lane survey.

E. L. Smith Oil Co., 1 Irvine, 60 feet—set 10 in. casing.

E. L. Smith Oil Co., 2 Irvine, location.

E. L. Smith Oil Co., 2 Irvine, location.

Seaport Oil Co., 2 Vincent, 3055 shale.

J. L. Thompson Oil Co., 1 Christian, Derrick, located 150 ft. W., 150 ft. S. out of 6 E corner Block 5, Christian subdivision, W. P. Lane survey.

Trapshooter Dev. Co., 1 Warren, 3218 shale.

Trapshooter Dev. Co., 1 Reid, 310 shut down.

U. S. Tex Oil Co. (204), 1 Burke, 2490 shale—T. C. 1977, B. C. 2433.

U. S. Tex Oil Co., (305), 2 Burke, 2190 shale, T. C. 1978.

U. S. Tex Oil Co., 3 Burke, Derrick, located 150 ft. W., 150 ft. S. out of NE corner U. S. Tex 15 acre lease. H. G. Anderson survey.

Humble O. & R. Co., 1 Kent, Rigging up. Located 1000 ft. south of north line. 150 ft. west of the W. line of the J. Taylor survey.

Humphreys & King, 1 Springfield, Derrick on ground. Located 150 ft. north, 150 ft. west of SE corner, Springfield subdivision, W. P. Lane survey.

Magnolia Pet. Co., 10 Guner, 3135 ft., shut down.

Magnolia Pet. Co., 1 Burke, 2950 lime.

Mitchell & Jones, 1 Burke, 938, shale.

Mitchell & Jones, 1 Christian, Derrick, located 150 ft. W., 150 ft. S. of N. E corner Block 4, Christian subdivision, W. P. Lane survey.

McMann Oil Co., (304), 1 Chapman, 1100 ft. shale.

McMann Oil Co., (303), 2 Chapman, 1750 shale.

Midwest Texas Oil Syn., 1 Miles, Derrick.

Midwest Texas Oil Synd., 1 Baltzinger, Rigging up.

Pet. Prod. Co., 1 Warren, 3219, shut down.

Roxana Oil Corp., (305), 1 Blumrosen, Rigged up, located 150 feet east, 150 ft. S. of the S W corner Gulf Production Co.'s Christian lease.

Roxana Oil Corp., 2 Blumrosen, located 150 E, 600 N. of S. W. corner Blumrosen 40 acre lease, W. P. Lane survey.

Roxana Oil Corp., (330), 1 McKie Derrick, located 150 ft. south, 230 feet W. N. E corner Roxana 40 acres, McKie farm, Jos. Broyles survey.

J. K. Hughes Dev. Co., 4 McKie, 300 shale.

J. K. Dev. Co., 5 McKie, 957 shale.

J. K. Hughes Dev. Co., 6 McKie, Derrick. Located 150 ft. east creek, south McKie 1, 300 ft.

J. K. Hughes Dev. Co., Derrick, located 150 feet east creek, 600 ft. south McKie 1.

J. K. Hughes Dev. Co., McKie 8, Derrick. Located 410 ft. south north line, 150 ft. east west line 32 acre tract in Hughes subdivision, Broyles survey.

J. K. Hughes Dev. Co., 1 Keip, near Kerns, 3016 shut down.

Thompson, Hozer, et al, 1 Springfield, 2911, came in flowing 1999 bbls per hour, 5-27-23. Sanded up at 9:30 P. M. after making about 15,000 bbls. of oil. Building tanks and picking up oil off lease.

Humble O. & R. Co., (394) 1 Blumrosen, 1015 shale.

Humble O. & R. Co., 2 Blumrosen, 250 shale.

Humble O. & R. Co., 3 Blumrosen, Derrick. Located 150 ft. E. 150 ft. south of N. E corner Blumrosen 12 acre lease.

Humble O. & R. Co., 4 Blumrosen, Location. Located 150 ft. E 150 ft. S of N W corner Blumrosen 12 acre lease.

Humble O. & R. Co., (923) 1 McKie, Rigging up.

Humble O. & R. Co., (387), 1 Irving, Rigging up.

U. S. Tex Oil Co., 4 Burke, Derrick. Located 150 E. 150 S. out of N W corner U. S. Tex 15 acre lease, H. G. Anderson survey.

Witherspoon, et al, (305), 1 Witherspoon, 1938, lime and chalk.

Witherspoon, et al, 2 Witherspoon, Rigging up. Located 150 ft. W., 150 N. of the S W corner, Mitchell & Jones, 2 1/2 acre tract, H. G. Anderson survey.

J. E. Walsh, 1 Warren, 2210 shale.

Gulf Prod. Co. (305), 1 Christian, Gulf Prod. Co., (304), 1 Blumrosen, Texas Company, (300) 1 McKie.

## Co-Eds Pick Ideal Men for Marriage

MILWAUKEE, Wis., June 2.—A man tall, with either blue, gray or brown eyes; ambitious, a home lover, good talker; mixer and dancer and must have a college education; having good looks and wealth no essential; but must be of moderate means; and a man of his word with the ability to concentrate his love and the methods of a cave man—this is what Marquette University co-eds think an ideal man should be and possess.

In a questionnaire sent to twenty-five Marquette University co-eds here, the above requirements are a general idea of what they expect of their future husband.

In the questionnaire sent to the co-eds was asked the question, "What sort of a man do you wish for your husband?"

The following qualities were thought necessary by the number of girls mentioned—Dark complexion, 14; light, 7; tall, 20; blue eyes, 12; brown eyes, 8; gray eyes, 3; wealthy, 2; moderate means or good salary, 20; college education, 17; sense of humor, 20; home lover, 15; good talker and dancer, 15; athletically inclined, 5; experienced lover, 8; honest and truthful, 14; ambitious and energetic, 20; striking personality, 7; cave man, 10; jealous of wife, 14; kind and thoughtful, 7; lover of children, 6; chivalrous, 15; neat, 6; good natured, 8; high ideals, 4; must love wife, 25; serious minded, 2; musician, 5; real man, 20; lover of art, 1; not goody-goody nor the other extreme, 1.

Of all the qualities expected of their future husbands, these twenty-five girls were unanimously on only one point—that their husband must love his wife.

A pretty blonde placed dancing as an unessential side issue but said that her "man" certainly must be a "cave-man."

STAMFORD, CONN.—A swarm of bees, taking possession of summer street, caused the greatest traffic tangle in Stamford's history before a professional bee man arrived and led them to a hive.

CHEROKEE, TEXAS.—Grasshoppers are ruining the cotton crop in parts of this section and great anxiety has been expressed by the farmers. Unless a method for destroying the pests is found, it is feared the insect will prove disastrous to the crop.

CAMERON.—Will Shocksels, farmer, living near Tracy, was struck by lightning as he sat at the supper table with his family. The bolt struck Shocksels in the stomach, knocking him to the floor but inflicting no severe injuries.

CAFE FOR SALE.—Trade, or Rent. Located in the heart of the oil field on Waco Pike. Have eight regular boarders. Nice living room. Fine well of water, ice box, tables, and chairs. Plenty of dishes and cooking utensils. Everything goes. Price \$150.00. Easy terms or what have you to trade. Phone 9005. 3F3

C. H. Hon of Demming, New Mexico, a brother to Mrs. J. P. Dunnaway is spending a few days here with Mr. and Mrs. J. P. Dunnaway. He was on business in Dallas and decided to come by here for a brief visit. Mr. Hon is well pleased with what he has seen of Mexia and the great oil field and it is hoped that he will decide to make this his future home.

R. C. F. McKenzie has business in Dallas the latter part of the week.

W. B. Jackson has returned from San Angelo, where he has been visiting his children, and where he was quite sick for several days.

Negroes of Woodlawn To Build Fine School

The negroes at Woodlawn about five miles west of town are to build a new \$30,000 school house in the immediate future. This will likely be the finest negro school building to be found in any rural community of Texas. Miss Cora Ferguson, superintendent of Limestone County Schools, is expected to go to Austin Monday to place the bonds which have already been voted and all preliminaries dispensed with.

Horace Stevens has returned from Lubbock.

Mrs. Lillian Pittman was carried home Saturday from the Brown's Hospital where she has been recovering from a broken hip.

## Amarillo Citizens Applaud Colonel Humphreys with Enthusiasm of the Ovation Type After Address There

Colonel A. E. Humphreys returned at noon Saturday from a two weeks trip to Colorado and voiced his usual enthusiasm because of his appreciation of again being back to his home in Mexia.

He left here two weeks ago to the day for Denver to be at the bedside of a very sick friend who had often expressed a hope of seeing him at an early date.

While in Colorado, he also visited his far famed Lodge located in the mountains at the end of the roads where the trail begins.

En route home, he went by Amarillo where he met Glen Kahle, general manager of the Humphreys Oil Company. There they toured the properties of the company in that section of the state and the Colonel speaks very optimistically of prospects ahead of the district. In any development program there, the

Humphreys Oil company will have a large part. This is assured because of its large holdings located in the heart of the region which is the center of activities, "where the pot is biling wastest", as the Colonel would say.

While in Amarillo, the distinguished Texan was invited to speak to the citizens of that section. The City Hall was procured for that purpose and about 1,500 crowded into the auditorium to hear him. According to newspaper reports of the meeting, the Colonel spoke on "Intensive Americanism" and his address aroused the enthusiasm of his auditors to an intensity that broke forth into almost an ovation for the speaker. He made many references to his trip abroad, illustrating in a graphic way the various points stressed, comparing conditions abroad with those at home.

St. James's Park, and hundreds of thousands of citizens witnessed one of the most picturesque military parades to be seen in Europe.

## King George Is 58

LONDON, June 2.—King George is officially celebrating his 58th birthday today—actually he is not 58 until tomorrow, but Sunday not being a recognized day for state functions, the anniversary was advanced a day, so that anybody who wanted to say "Happy Returns" could do it in working hours.

At all naval and military stations throughout the British Empire, the "King's Birthday" was celebrated with customary official festivities. Official congratulations from all the rulers of the world were received at Buckingham Palace.

London witnessed the annual stately parade known as "Trooping the Color." King George personally reviewed his Guard on the Horse Guards parade.

V. WOLVERTON CO.

Rumored "Second Mrs. Stillman" Much Like First.

Mrs. Joseph T. Talbert. Mrs. Anne U. Stillman.

The name of Mrs. Mira R. T. Talbert, New York society woman, has been linked with that of James A. Stillman, banker, in society gossip as that of the "second Mrs. Stillman." Mrs. Talbert has shown a striking similarity in appearance and manner to Mrs. Anne U. Stillman, and this has recalled the latter's prophecy that "if Stillman ever is free to marry again you will find him paying court to a woman possessing the qualities of the wife he sought to destroy." Mrs. Talbert is the widow of Joseph Truitt Talbert, banker and friend of Stillman.

ROTARY-LIONS  
 BALL GAME IS  
 ANNOUNCED  
 JUNE 6

Wednesday, June 6th has been definitely decided on as the date of the big ball game between the teams from the Lions and Rotary Clubs. The exact hour of the beginning of hostilities will be announced in Monday's paper. There will be some stunts before the game and it may be that the stunts will start about 4:30 and the game about 5 o'clock. The price of admission at last report had not been definitely decided upon and that also will be announced in Monday's paper. The entire proceeds less the actual expense will go toward the funds for outfitting the play grounds and the game is being conducted at a minimum of expense in order that more of the money will be net for the play ground fund.

A member of the Rotary Club stated that one thing emphasized above all others in the Rotary Code of Ethics was interest in the welfare and proper upbringing of boys and girls. Any man who has forgotten that he was once a boy does not love boys, could never be a Rotarian for Rotary teaches that a boy is a diamond in the rough and that the boy of today is the man of tomorrow. That upon the kind of boys we have depend the kind of men we will have tomorrow and the Rotary club, to a man congratulates Mr. Hughes on his wonderful gift of a park site to the city of Mexia. The Rotary club likewise cedes to the Lions club the honor of having conceived the idea of the ball game now being promoted for the play ground fund and the Rotary Club believes that the people of Mexia should appreciate the Lions organization and Lion Hughes, as a citizen and as a Lion, and they deem it a privilege to enter into the spirit of the occasion and help to make the movement a success; for Mr. Hughes and the other good members of the Lions Club may belong to the Lions Club, but they also belong to the community as well, and in that way in a sense they belong to the Rotary club, for we are one community and should be one large family. So let every citizen whether a member of a club or not, do his bit toward making this occasion a success in every way possible.

The management of the Rotary ball team is carrying a troubled expression for fear some of his talent will be drafted before Wednesday, for it is said that a big league scout is in the gang of spectators watching the Rotary team practice Thursday and Friday, and that he has his eyes on several of these fast youngsters. The line up of the team is about as follows:

Dick Wagner, catcher.  
 Dave Bayless or Pat Patterson, first base.

Nelson Forrest, 2nd base.  
 Chas. Sergeant, short stop.  
 "Etch" Etchison or Ike Keyes, 3rd base.

Leonard Tidwell, John Corley and Fred Karner, outfielders.

Substitutes: Albert Berry, Cox Brodhead, James Buie, J. W. Elliott, Hardie Eubanks, Allen Hatch, Jim Hodges, Ben Stollenwerck, Bill Keel, Pat McKenzie, Jess McLendon, Albert Humphreys, Tom Nolan, Joe Patton, Blake Smith, Ernest Watson, Wm. White, Jack Womack, Leslie Metcalf, Dave Murphy, Tom Measles, Jesse Leaning, Ed Measles, Joe Arrington, Joe Harrison, Glen Lable, Garland Adair, "Huch" Hutcherson.

The name of the Rotary pitcher

has not been announced, as the management is grooming a "Dark Horse" who has a fast ball with a wicked hop, and who can bend them until they look like they are going to break. Look out Lions!

It is worth the money to see Dave Bayless scoop them out of the dirt and he is confidently expected to deliver three or four home runs. It has not been figured out why Pat Patterson always jumps up and cracks his heels together when he throws or why Fred Karner has to raise one foot every time he catches a ball. Old base ball heads have never been able to yet explain these phenomena. Pat had a little bad luck the first day practicing and it is to be hoped that no such calamity will happen when the stands are crowded with spectators. On the day of the great game people will find out that Ike Keyes can do something else besides practice law and "Etch" Etchison is a "plum" bear on third base and those who figure that the Rotary club have not a chance, have got another guess coming, because they are learning another song, the title of which is "Church is not over till the singing is out."

It is expected that the President of the Rotary Club, Col. A. E. Humphreys will be present in full force

and will pitch the first ball for the Rotary club. There will be some other stunts besides the ball game and any who miss this event will never cease to regret it.

Both clubs are very anxious that all merchants in the town who possibly can, close their places of business at 1:00 o'clock Wednesday afternoon to permit their employees to attend the ball game, and any donations above the price of admission that any one wishes to make to the play ground fund will be accepted at the gate. Watch Monday's paper for items of burning interest.

Jack Womack, Jess McLendon and "Judge" White have agreed to volunteer as peanut and soda pop vendors in the grand stand and they will sure give "some sudden service" unless called on to act as relief pitcher or pinch hitter.

Tom Denning has sold his handsome new home on North Ross avenue, to Mr. B. B. Simmonds, one of the largest stock holders and directors in the J. K. Hughes Oil Company and the Hughes Developing Company. Mr. Denning will occupy the home that was formerly owned by Mr. Simmonds on East Rusk street.

SOCIETY  
 NOTES

42 CLUB

Mrs. George Peyton entertained the forty-two club Wednesday afternoon. In spite of the hot afternoon, more than a score of ladies were present and played until a late hour. Then trays laden with good eats were placed on the game tables and after partaking of the two courses, the visiting ladies left and the club members lingered for a short business session as this was the last regular meeting of the club this summer.

The following visitors other than club members were, Mesdames Jack Womack, Georgia Bergeron, Tom Phillips, Rush Allison, Jim Lanning, Emile Nussbaum, I. Newman, Desenberg, Sanford Smith, Asa Grant of Weatherford, Zulicka Adam, Gambrell, of Tulsa and Fred Hofstetter of San Antonio.

Mrs. F. P. Huchingson, Mrs. W. E. McKinney and Mrs. Horace Stevens entertained a number of ladies out at the Reunion Grounds Thursday, honoring Mrs. Asa Grant, of Weatherford. At one o'clock eighteen ladies gathered around the long table which fairly groaned with the following good things to eat: Fried chicken, beans, potatoes, hot rolls, ice tea, fruit salad, show, sweet pickles, potato chips, devilled eggs and angel food and devil food cake. Those present were: Mesdames, Grant, Sweatt, Wright Kinchlae, Sam Cox, Rush Hickman, Gene Sinclair, Jesse McLendon, Geo. Peyton, Fred Hofstetter of San Antonio, Lamar Campbell of Bunkie, La., Ernest Watson, J. M. Patton, W. B. Landrum, Samy Cox, Elizabeth Stevens and the three charming hostesses, who furnished the diversion of the occasion.

Friday Club

Mrs. Hugh Munnell was the hostess for the Friday club which she entertained with a delightful luncheon. The guests arrived about nine. She had two tables of bridge. Mrs. E. L. Burman won first prize, which was a hand-painted picture, and Mrs. J. G. Lockard won second, a nut bowl. Her guest was Mrs. Seaburn of Bartlesville, Okla., who is here on a visit with her daughter, Mrs. Goldtrap before going to California. At two o'clock she served the most appetizing three course luncheon. The rooms were decorated in pink roses.

Two radio stations will be established in Surinam by private interests.

Concrete pipe with metal end joints is being cast by a new centrifugal process.

"This Is a Studebaker Year"

# Three Courts Are To Be In Session In Limestone County In June

## Two District and County Court To Meet

Monday will begin a very busy period for the judiciary of this county. The legal profession, too, will have plenty to do. Business will be rushing for the attorneys of the county. Hundreds of citizens, too, will be at the court house for jury service, as witnesses or as interested spectators if not participant in the cases that will be heard.

For the first time in the history of the county there will be three courts in session at one time. The county court, with Judge Fountain Kirby will begin its June term. The county court now meets twelve times a year, according to the new schedule recently adopted.

The other two courts to convene Monday will be the two district courts serving Limestone County.

Judge A. M. Blackmon will convene June, July term of the 77th District Court. A jury has been summoned for the four weeks of June and there will also probably be a jury for the month of July.

The 87th District Court with Judge Bell of Teague, on the bench will continue its May-June session.

The Groesbeck Journal on this subject says:

This court was created by the last legislature and this its first session in Limestone county for work a large number of cases have been disposed of by this court during the past four weeks. Many new cases have been filed in this court since it was instituted and the docket is made up from these filings and from cases transferred to Judge Bell's court from the 77th court.

The county court with Judge H. F. Kirby will begin its June term next Monday also, making the third court to be in session here during the month of June. The terms of Judge Kirby's court have only recently been changed to meet every month, making twelve terms in the year instead of 6 as heretofore, by an order of the Commissioners Court.

The housing of these courts is a difficult proposition with only one court room available. The 77th District Court will hold its sessions in the court room at the court house, the 87th court will probably be housed in the Wood building which has been rented for that purpose while the County Court will probably have to be held in the office of the County Judge. Judge Kirby's court will experience the most inconvenience as the office of the County Judge is not large enough to permit of much court work. The 87th court will be inconvenienced in that it will be out side of the court house and out of touch with the District Clerk and the Sheriff's department.

Heavy dockets await the action of all the courts. It has been noted that in the District Court especially, new cases are being filed faster than the courts can possibly dispose of cases already on the docket so that the dockets are always more or less congested.

## Ticks Disappearing From Herds In Limestone County, Says State Representative Here Thursday

T. J. Fortenberry, inspector in charge of tick eradication in Limestone County, was here Thursday in the interests of the service. He stated that his monthly report of conditions in this county shows that there are 32,930 head of cattle in Limestone and 3,073 herds. Three of these herds show infection. Eleven head out of these herds show infection. The record, he says, shows much improvement, due to the co-operation extended by the citizens of the county.

He further said: "The people generally have co-operated with us in our effort to re-organize tick eradication work. We much appreciate this, and hope to have their continued support. No doubt we have located most of the ticky premises."

"We wish to say that there are just a few who are not making the proper effort to dip each animal each dipping day. Please get it well fixed in your

minds how necessary this is. If just one animal is permitted to go without being dipped and it drops just one tick, this tick will hatch out several thousand ticks; and from this bit of negligence you are caused much trouble and time. It will pay each owner to make a very, very special effort to get each animal. In short, make the same effort you would make if you were offered fifty dollars for cows and eighty for steers as during the high price period. You know you would get them then and you can get them now if you will just make up your minds to do it. Think this over seriously, as it means much. If you dip each animal each time you can finish within nine months from the last time fever ticks are found. Some have dipped a part of their herds for nearly five years and still have ticks. It will pay to dip close each time and finish rather than keep up this kind of dipping for years to come. Help us help you; we want to see the work finished."

### MARRIAGE LICENSE

The following marriage license were issued during the two week period ending Tuesday, May 29:

L. L. McDaniel and Lorena Johnson.

E. D. Hainy and Loverette King.

J. E. Bickens and Winnie Washburne.

Emmie Haynes and Elizabeth Puckett.

I. B. Saddler and Mary Applegate.

Robt. Curry and Ninnie May Phillips.

Thomas Smith and Ella Mae Carpenter.

J. B. Nichols and Catherine Cubage.

Ernest Brady and Thelma McGlovin.

Geo. Allen and Charity Andson.

Johnnie Burgess and Ella Mae Holliday.

C. B. McDonald and Maudie Lee Bounds.

Jay Williams and Pearl Tournsell.

Henry McBride and Gretchen Lash.

Alvin Johnson and Laura Manning.

Jim Williams and Ada Douglas.

Lester Burton and Eula Mae Freeman.

John McPherson and Lee Ella Smith.

Fred Manning and Hazel Mae Dodson.

Fred Fisher and Romie Keeling.

Jessie Jackson and Hester Chambers.

Lee Harper and Evelyn Brown.

Frank Nelson and Lona Rogers.

# RANGERS PLAY SENSATIONAL BALL, POURIN GIT ON MEXIA, AND ROMP OFF WITH A PAIR

By BLNDY ORSS

(In Austin American, May '31)

It has been prophesied that there be another world war! prophesied for age on age have doped it out by the moon, stars, and otherwise this poor little old earth of ours is going to come to a terrible finish tonight, tomorrow, next week, or maybe next year; some wise birds have commented to the effect that old King Solomon was a dumbbell, that Helen of Troy was cross eyed, and that Cleopatra, the Egyptian flapper, who made easy marks of about half the Roman army and all the high muckety-mucks of the old days, was the sister who really originated Puritanism; but no sage be he young or old, dared make the crack that A. Rankin Johnson's Ranger pastimers would turn the Mexia Gushers into a well that spout ed salt water and then suddenly went dry. And that is just exactly what Rankin's lads did Wednesday at Ranger park. Not only did they mount the topkicks of the Texas association in one contest, but they slapped the league leaders down for the small end of a double bill—the first by a 9 to 1 count, and the second—a seven inning affair—by a 2 to 0 score.

Nine Comes to Life

The Rangers snapped out of it, came to life, started all over again, played brilliant and sensational ball, made the league leaders as a baseball aggregation take on a pallid tint around the gills and look sicker than a pig-eyed weiner that had swallowed a species of the well-known jelly fish by mistake, or the filmy stuff an esthetic dancer wears when ever she happens to remember to wear anything at all, is fitting garb for an Arctic explorer.

The locals were right, supremely right from the first crack of the bat in the initial stanza of the first game to the final out in the last round of the second contest.

Looks Good

One of the new recruits, newly acquired Ranger outfielder, cavorted around in the left garden, and critical fans put their ok on him from the start. Lawrence fielded well, handled himself similar to a big leaguer, and hit timely.

Skipper Art, local athlete did 'em dirty. He didn't do nothing else but rob 'em right and left of what should have been safe hits on not one or two occasions, but half the time the agate was driven to the right side of the playing field.

Chaney, Clements and Falk were powers on the offense as well as on the defense in the first game. Each drove the pill over the fence once, Nig hit three out of five, Bish hit three out of five, and Art hit two out of five.

Fitcharty in Rare Form

And Pewee Fleharty put his well rounded form over on the third base coaching line and did his stuff well. It may have been hot yesterday, and the peewee may weigh somewhere in the vicinity of 215 pounds, but he was the pepperest fat man in this burg Wednesday, and he aided much in bolstering up the old Ranger fight. Luther Brooks took the rubber for the Rangers in the opening fracas, and Lefty McCaw twirled 'em for the visitors. Lefty was either not in form, or the locals were just natural on a rampage. Fifteen safe blows did the Austin crew crack off Lefty's delivery. One point of interest, McCaw played the entire route with his

right thumb in splints—he broke it last week.

Brooks Invincible

Brooks held the clouting Gushers to five bingles, and backed by sensational support didn't stand a chance to lose.

The Rangers counted in the first round when Skipperino, lead off man, poled the horsehide over the left field wall.

The locals chalked two in the third. Clements singled sharply into right center, and chased home when Chaney parked the pill.

In the fourth, Clements robbed Leedy of a hit by running away back and over toward third to pick up one and throw the batter out at first.

Another marker went into the tally sheet for Austin in the fifth. Chaney singled after one was down, stole second, and counted on double into left field by McElwee.

Mexia Scores One

In the sixth, Geppert of Mexia walked, Royster singled between second and first, Leedy flew out to left field, and Geppert scored when Butler drove a one base clout into center field.

Austin marked four more in this stanza. A single by Crow, an error, hit batter, double by Falk, and homer by Clements accounted for the tallies.

Whitworth scored in the ninth after singling through pitcher's box, being advanced by single by Brooks, a drive by Falk which cut Brooks at second but allowed Richard to make third, and a single into center field by Clements.

A double play, Falk to Clements to Crow, cut down a possible Mexia counter in the ninth.

THE SECOND GAME

The second contest saw the mayor of Hamilton pool on the rubber for the locals, and he merely hurled just another good game. Sensational support by the Rangers in this one, also cut down any possible scores.

But Dummy Collins was right, and the Gushers couldn't get well. Lefty McCarty, released by the Rangers Tuesday and snapped up by the league leaders, twirled for Mexia. And McCarty hurled a nice game, but his support wilted, also the breaks were against him.

Mexia Threatens

Mexia threatened in the initial stanza when Geppert singled between second and first, and went to the keystone sack on perfect sacrifice by Royster, and that was all. The Austin defense looked similar in effect to a 50-pound bale of the long green, and threaten though they did, brilliant fielding thwarted all attempts of the Adonis from the oil town to spike home plate.

Bryan let off for the visitors in the second with a drive in the general direction of first or second base—it was hard to tell, but Spikkerino Art made a running dive spearing

Business Opportunity

If interested in investing in an established business with good position address P. O. Box 233, Marlin, for full information.

the agate with one hand for a bit more of the highway stuff. Howell next on the firing line, singled and but for Falk's sensational stop, things would have looked hard for the mayor.

Fast Work by Falk

Geppert first up for the Gushers in the third, got on when one of Dummy's slants caught him between the shoulders. Royster singled into left field putting Gep on second and Leedy bunted the pair up a base. Butler drove one to Falk, and the skipper cut Geppert at the plate with the aid of Catcher Autry who was on his toes throughout both contests. The next batter was easy.

With the aid of a couple of errors and a single between second and first by Whitworth Austin scored one in the fourth. Pitcher McCarty was not to blame in the least for the run.

Butler, first up for Mexia, singled in the sixth, and was advanced to second by Johnson who bunted. Quick fielding by Falk stopped the next two batters at first base.

Rangers Push One Over

In the last half of the sixth, the Rangers counted another. McElwee hit one to second which took a bad hop giving him a life at first. Autry bunted one too fast for the pitcher to field yet too slow for anybody else to get, and went to second when McElwee nearly caught the Gushers flat footed and got put out in a hot box between second and third. Crow went out short to first, but Autry chased to third. A drive into left center by Whitworth scored Autry.

In the seventh, Holloway in right field retired the Gushers by making a wild chase and a one-handed catch of what appeared to be a sure safety by McCarty.

JOE RUSSELL HERE FROM HOUSTON

Joe Russell of the Gulf Company, with headquarters at Houston has been in the Mexia Oil Field district several days this past week. Friday he visited the Powell field in connection with his duties with the company. He speaks of the Powell pool as a very promising district.

## Western Major Teams Weak!

By HENRY L. FARRELL  
(United Press Sports Editor)

NEW YORK, June 2.—Failure of the western clubs in both major leagues to get away to the expected start was one of the outstanding features of the first quarter of the race.

The Pittsburgh Pirates, of the whole flock, was the only team to show anything of the form expected of them, and the Chicago White Sox and the St. Louis Browns were the most prominent busts.

Players on the New York Yanks always maintained that the St. Louis Browns were not a game ball club, and they set out to prove their contention in the "crucial series" they had last season when the pennant was at stake. The loss of Sisler, of course, was a terrible blow to the Browns, but the loss of Ruth and Meusel for five weeks of the early season last year was also a handicap to the Yanks. The difference, however, is that the Yanks doubled their efforts and played as if under inspiration when their two stars were out of the game and the Browns seem to have curled up under their affliction.

It is interesting to follow the two radically different theories on which the two champion New York clubs are operated.

Miller Huggins believes that everything depends on pitching and he has assembled to the Yankees the greatest pitching staff in baseball. He dis-

counts tremendous hitting power as is represented in the Detroit Tigers and he has maintained that it was the lack of pitching that would keep the Cobb team from winning the pennant. So far, his theory looks sound.

John McGraw, on the other hand, favors a fast, hard-hitting club, and he has it in the Giants. The leader of the world's champions does not put so much stress on pitching and he seems to get along without it. He is on his way to a third pennant with a team that has had anything but capable pitching.

Perhaps it is too much to expect a great pitching staff on the Giants, as they might never lose a game.

## The Gnat Does Not Seem to Have Evoluted Much

FORT WORTH, June 2.—The gnat which flits about during the present era shows little superiority over its ancestors of some 50,000 years ago, according to Will M. Winton head of the science department of the Texas Christian University here who has a gnat of prehistoric pedigree.

The gnat, which Winton states, is

## WORKING THE "COMBINATION"

A combination lock usually protects something valuable. The more valuable the article protected the more complicated the "combination", as a rule.

It requires a certain degree of knowledge and some practice to "work it". In this respect the combination to prosperity is no different from others.

In a farming community like ours, the door to prosperity may be opened, with close application and patience, by working the following combination properly.

Feedstuffs—milk cows—hogs—poultry.

You may need some help—if so, use us. We're here for exactly that.

## He Could Dance With Flat Feet

DALLAS, June 2.—There are some peculiar things in this world, according to a recent applicant for enlistment in the navy.

Walking into the local recruiting station he announced his intention of joining the navy and after the usual preliminaries was taken into the physical examination room. The officer in charge told him he was not eligible because his feet were flat. He would not be able to stand up during storms or heavy weather at sea, the officer said.

"Not stand on my feet," exclaimed the lad. "I just danced 110 hours in a marathon contest and was going strong when the cops stopped me," and he stalked indignantly and flat footedly from the office.

## Expensive Robe On Display Here

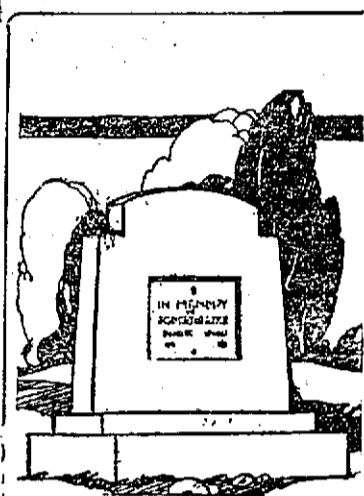

A. W. Wesson, a local jeweler, has on display in his windows at the Northeast corner of Commerce and Central Avenue a handsome purple robe found by a local soldier while overseas in service. The robe has on it a statement which reads: "Found in Vandiers, France, near Alsace Lorraine, on the St. Mihiel front, about September 25, 1918, by R. C. Norman, Company L 359th Infantry." Mr. Norman is a local citizen and loaned Mr. Wesson the robe for exhibition in the windows here. Many have been attracted to it, as it is one of the most expensive appearing article of wearing apparel for officials of the Catholic church ever seen here. The braid is of high grade gold. Mr. Wesson placed the braid in a chemical test which showed that it was pure gold. On the back of the robe, which fronts the congregation of worshippers appears a cross, bleeding hearts, a sword, wheat, grapes, most of which ornamentation is in gold also. The front is hardly so ornamental but very attractive. It seems that in the hasty exit of inhabitants from that portion of the battle line, this robe was left behind. Mr. Norman was enabled to send the article back to America through the Red Cross. He found it himself, and his captain permitted him to retain it as a unique souvenir of the efforts "Over There."

## Investigation of Jones and Baker Crash In N. Y.

NEW YORK, June 1.—Investigation into the crash of Jones & Baker, the largest stock brokers of the curb market here and one of the largest firms ever to go into involuntary bankruptcy, was launched here today while authorities in Chicago were determining whether the Illinois "blue sky" law had been violated by the firm.

"Long Accounts" of customers were reported to amount to \$10,000,000, with short accounts running possibly to \$2,000,000, and bank loans totaling about \$2,500,000.

Steps were taken by authorities to insure that there would be no obstacles to surmount as in previous inquiries when other brokerage firms failed. Assistant District Attorneys Winter and Ungar have demanded of the receiver that all books he held intact for the persecution authorities and the curb market association has been requested to preserve records of its investigation of the concern.

Why neglect marking the grave of your loved ones? Memorial for ten dollars and up.

### "PEG O' MY HEART" SOON ON SCREEN

Laurette Taylor's Famous Play,  
Filmed for Metro, Denotes  
Film Debut

When the news was first published that "Peg O' My Heart," J. Hartley Manner's famous stage success, would be picturized by Metro, with Laurette Taylor making her screen debut in the role which has endeared her to hundreds of thousands of theatregoers, delight was expressed everywhere. Drama lovers everywhere were pleased that this celebrated tale should receive animated circulation beyond the limitation of the stage.

Under the direction of King Vidor, with a supporting cast of high abilities, and with Michael, the canine actress with the masculine name, playing her accustomed part, Laurette Taylor has finished her work before the camera. The result, advance reports indicate, is a photoplay even more interesting than the stage play. Residents of..... will be enabled to enjoy this poignant, heart-stirring, whimsical performance next Monday, when it comes to the National Theatre for 3 days.

This story of Peg and Jerry, of England and Ireland and the O'Connells and Chichesters and Kingsworths, has had 6,608 stage performances in the United States. Nor has its popularity been limited to this country. South Africa, India, Hawaii, Italy, Czechoslovakia and Paris have also seen and enjoyed it. The production of the photoplay by Metro enables all these Peg fans to see the original Peg portray the role, in addition to introducing this pictured bit of loveliness and charm to those to whom it has hitherto been only a name.

The players supporting Miss Taylor in the immortalizing of Peg on the screen were selected with a view of making each characterization a living portrayal, authentic, vivid, interesting. The cast includes Mahlon Hamilton, Russell Simpson, Ethel Grey Terry, Nigel Barry, Lionel Belmore, Vera Lewis, Sidna Beth Ivins, D. R. O. Hattwell, Aileen O'Malley and Fred Huntly.

### FIRST CHRISTIAN CHURCH

Bible School at 9:45. Carl Davis Superintendent.

There will be no preaching services at the morning hour but we shall have the communion service immediately after Sunday School, and then go to the Baptist Church for the Baccalaureate sermon.

Christian Endeavor at 7:00 p. m. Landrum, President.

At eight o'clock I am to deliver my humorous lecture, "Ringing the joybells of life." No charges, on collection, so come and enjoy the evening. G. T. Reaves, Pastor.

### CENTRAL PRESBYTERIAN

Rev. Daniel E. Grieder, Pastor of the First Presbyterian Church of Terrell, Texas will preach at the Central Presbyterian Church, Sunday night June 3rd., at 8:00 o'clock.

The services will be under the supervision of Rev. Dr. David C. Bayless. All are cordially invited to attend.
